Our new catalogue for 2018

Mires Beck Nursery is a Registered Charity with the primary aim of providing horticultural training and work experience for people who have a learning difficulty or disability. Our constant aim is that all who come to the nursery will enjoy and benefit from being involved in a productive, therapeutic and creative work environment. Our experience has shown that people who are involved in the wide range of activities undertaken here develop practical and social skills and grow in confidence and self-esteem.

An extensive range of plants are grown at the nursery including herbaceous perennials, wildflowers, shrubs and herbs. Everyone coming to Mires Beck is involved in the production and care of these plants from propagation to the finished product. We take great pride in the quality of our plants, displays and presentation which is why customers come back time and time again.

At Mires Beck we continually assess which plants are performing well and watch the market place carefully to see which plants are in fashion. We have discontinued plants that we feel do not perform well and taken the opportunity to introduce new and exciting varieties. The new plants are listed at the front of the catalogue and highlighted in green text throughout. The catalogue is compiled alphabetically and details pot size, flower colour, height and whether the plant has been awarded the RHS Award of Garden Merit.

Our herbaceous perennials are grown outside all year long in peat reduced compost. We use a slow release feed and MET 52 for the control of vine weevil. In addition to our herbaceous perennials we have introduced a small range of Ferns and expanded our range of grasses and shrubs.

We grow a wide variety of herbs which are grown in 9cm pots and in peat free compost with added perlite. Our herbs are supplied in trays of 18 and can be a mixture of varieties or a full tray of a single variety.

As part of our service to garden centres we offer pre-priced and bar-coded labels. Our labels have full colour pictures, plant descriptions and planting information. Throughout the summer we offer free delivery on our regular delivery days with no minimum order requirement. A weekly availability list is available if required and our sale or exchange policy remains the same.

PRICES: Our prices for 2018 are shown below:

Tray	18 x 9cm herbs	£12.60	(70p each)	No VAT
------	----------------	--------	------------	--------

All Prices plus VAT at the current rate.

Tray	10 x 1 litre black	£12.00	(£1.20 each)
Tray	6 x 2 litre black	£13.50	(£2.25 each)
Tray	6 x 2 litre green	£15.90	(£2.65 each)

With the current interest in providing nectar rich habitats for bees and butterflies we also grow and supply a comprehensive collection of native Wildflowers, all sourced from Yorkshire and grown here at the nursery. If you are interested please contact us for a wildflower catalogue and price list.

You are always welcome to visit us but if you are unable to our website www.miresbeck.co.uk provides full details of all the plants available. We can also be contacted by telephone or email. Please note all plants are offered subject to availability and not all varieties are available all year.

New Plants for 2018

Herbaceous

Adenophora 'Gaudi Violet'
Agapanthus 'Navy Blue'
Agastache mexicana 'Red Fortune'
Aquilegia vulgaris 'Winky Weah'
Aquilegia vulgaris 'Winky Wooh'
Aquilegia 'Origami Blue & White'
Aquilegia 'Origami Red & White'
Brunnera 'Silver Heart'
Dianthus 'Passion'
Dianthus 'Raspberry Sundae'
Doronicum 'Little Leo'
Echinacea purpurea 'Avalanche'
Erysimum 'Bowles Mauve'
Erysimum 'Constant Cheer'
Euphorbia x martinii 'Ascot Rainbow'
Euphorbia characias subsp characias 'Tasmanian Tiger'
Gaura lindheimeri 'Passionate Blush'
Geranium 'Black Beauty'
Geranium pratense 'Summer Skies'
Helianthus 'Suncatcher Pure Gold'
Monarda didyma 'Pocahontas Pink'
Monarda didyma 'Pocahontas Red Rose'
Monarda 'Fireball'
Polemonium 'Bressingham Purple'
Rodgersia 'Chocolate Wing'
Saxifraga arendsii 'Red'
Saxifraga arendsii 'White'

Shrubs

Abelia grandiflora 'Magic Daydream'
Nandina domestica 'Obsessed'
Sambucus 'Black Lace'

Plant	Pot Size	Flower	Height	AGM
A				
<i>Acanthus spinosus</i> A wonderful architectural plant for the back of the border. It has glossy dark green spiny leaves above which spikes of unusual mauve and white flowers are held.	Black 2L	Purple	1.5m	✓
<i>Achillea</i> 'Fanal' An ideal plant for the back of the border this Achillea produces large flat clusters of red flowerheads held on tall stems above fragrant fern like foliage. Good for cut flowers.	Black 2L	Red	75 - 90cm	
<i>Achillea</i> 'Moonshine' An ideal plant for the back of the border this Achillea produces large flat clusters of yellow flower heads held on tall stems above fragrant fern like foliage. Good for cut flowers.	Black 2L	Yellow	45 - 60cm	✓
<i>Achillea</i> 'Walther Funcke' An ideal plant for the back of the border this Achillea produces large flat clusters of orange-red flower heads fading to creamy yellow held on tall stems above fragrant fern like foliage. Good for cut flowers.	Black 2L	Orange	30 - 60cm	
<i>Achillea millefolium</i> 'Appleblossom' An easy to grow herbaceous perennial invaluable for the summer border. It has aromatic grey-green foliage and flat flowerheads made up of rose-pink flowers. The flowers fade in colour but last well into the autumn.	Black 2L	Pink	90cm	
<i>Adenophora</i> 'Gaudi Violet' Adenophora is an elegant relative of the Campanula. It has stunning spires of fragrant, pale violet bell-shaped blooms which stand upright above the clump forming foliage. It will add an architectural touch to your borders throughout the summer.	Green 2L	Purple	70 cm	
<i>Agapanthus</i> 'Navy Blue' Agapanthus make a structural and graceful addition to any border. 'Navy Blue' is a popular variety with deep blue bells on blue-black stems.	Green 2L	Blue	90 cm	
<i>Agapanthus campanulatus</i> 'var albidus' Agapanthus originate from South Africa and they are a great summer flowering perennial for the garden or container. Clumps of strap-shaped leaves form at the base of the plant. At the top of smooth bare stems round heads of white, trumpet-shaped flowers are produced.	Green 2L	White	75cm	
<i>Agastache</i> 'Blue Boa' Agastache are great for attracting bees, butterflies and other beneficial insects to the garden. Blue Boa is a brand new variety producing spikes of stunning deep violet blue flowers held over deep green foliage. They are Drought tolerant so great for borders and containers.	Black 2L	Blue	60cm	
<i>Agastache mexicana</i> 'Red Fortune' Agastache 'Red Fortune' is a short lived perennial ideal for the middle to the front of the border flowering over a long period. It produces long wands of bright magenta-red flowers on a compact bush of licorice-scented green leaves.	Black 1L	Red	60 cm	
<i>Agastache rugosa</i> 'Golden Jubilee' A striking plant with attractive golden yellow foliage, above which spikes of violet-blue flowers are held during summer.	Black 1L	Purple	upto 60cm	
<i>Ajuga</i> 'Black Scallop' Ajuga are great for providing Autumn foliage colour in planted containers and at the front of the border. This variety has shiny black bronze leaves. In late Spring short blue flower panicles appear above the foliage.	Black 1L	Blue	12cm	
<i>Ajuga reptans</i> 'Chocolate Chip' An attractive ground cover plant with dark green foliage overlaid with chocolate brown. In spring short attractive spikes of blue flowers appear.	Black 1L	Blue	10 - 15cm	

Plant	Pot Size	Flower	Height	AGM
<i>Alchemilla mollis</i>	Black 1L Black 2L	Yellow	30 - 60cm	✓
A very useful ground cover plant forming a neat clump of attractively lobed leaves which look especially good after dew or rain when droplets of water are held on the leaves. Masses of yellow flowers throughout summer. Cut back after flowering for a fresh flush.				
<i>Allium cristophii</i>	Black 1L	Purple	30 - 60cm	✓
Large heads of metallic purple flowers held on short stems. The flower heads dry well. Prefers a well drained soil.				
<i>Allium karataviense</i> 'Ivory Queen'	Black 1L	White	20cm	✓
Grey-green leaves with a silvery bloom and a reddish edge. The stem is short and sturdy and carries a globe of star shaped pale apple-white flowers.				
<i>Amsonia</i> 'Blue Ice'	Black 1L	Blue	up to 50cm	
Easy to grow and look after Amsonia has willow like leaves and forms a dense cluster of foliage. Above which in late spring beautiful blue star-shaped flowers are borne in clusters at the end of each stem.				
<i>Anchusa azurea</i> 'Loddon Royalist'	Black 2L		Up-to 1m	
Herbaceous perennial with coarsely hairy stems and leaves. Azure like small blue flowers are borne on erect, branching stems. Enjoys a sheltered sunny position in well drained but moist soil, will tolerate part shade.				
<i>Anemone hupehensis var japonica</i> 'Pamina'	Black 2L	Pink	up to 90cm	✓
A great addition for the late summer border. 'Pamina' produces large double, cup shaped pink flowers above deeply cut deep green leaves.				
<i>Anemone sylvestris</i>	Black 1L	White	30 - 50cm	
This plant has beautiful rounded and deeply lobed leaves above which are single white flowers held on long stems. Flowers early summer. Prefers a well drained soil.				
<i>Anemone x hybrida</i> 'Honorine Jobert'	Black 1L Black 2L	White	50 - 120cm	✓
A delightful late summer flowering cultivar. It has bold lobed leaves above which sit pure white flowers on airy stems.				
<i>Anemone x hybrida</i> 'Queen Charlotte'	Black 1L Black 2L	Pink	80 - 125cm	✓
A vigorous Anemone with green lobed leaves. In summer on airy stems large bright pink flowers are produced.				
<i>Anthemis tinctoria</i> 'E.C. Buxton'	Black 1L Black 2L	Yellow	40 - 60cm	
Masses of lemon yellow flowers produced over a long period make this an excellent choice for the border. Flowers last well when cut.				
<i>Anthemis tinctoria</i> 'Sauce Hollandaise'	Black 1L Black 2L	White	40 - 60cm	
Produces masses of pale yellow flowers ageing to a creamy white. The flowers last well when cut. An excellent plant for the border				
<i>Aquilegia</i> 'Origami Blue and White'	Black 1L	Blue	35cm	
Aquilegia are cottage garden favourites. This variety has dainty flowers with blue outer petals and white centers. It has prominent stamens and will bloom for many weeks during the spring.				
<i>Aquilegia</i> 'Origami Red and White'	Black 1L	Red	35 cm	
Aquilegia are cottage garden favourites. This compact variety has dainty flowers with red outer petals and white centers. It has prominent stamens and will bloom for many weeks during the spring.				

Plant	Pot Size	Flower	Height	AGM
<i>Aquilegia vulgaris</i> 'Winky Weah'	Black 1L	White Blue	45cm	
A good cottage garden favourite ideal for pots and containers. 'Winky Weah' produces heads of small double, blue and white flowers on tall stems above attractive lacy foliage. Flowers from May to June				
<i>Aquilegia vulgaris</i> 'Winky Wooh'	Black 1L	White Red	up to 45 cm	
A good cottage garden favourite ideal for pots and containers. 'Winky Wooh' produces heads of small double, red and white flowers on tall stems above attractive lacy foliage. Flowers from May to June				
<i>Armeria maritima</i> 'Alba'	Black 1L	White	20cm	
A tough little plant found by the sea. Ideal for the front of the border it makes a good ground cover plant with mounds of foliage, above which flowerheads of small white flowers are held throughout spring.				
<i>Armeria maritima</i> 'Splendens'	Black 1L	Pink	10 - 20cm	
A low growing, clump forming, long flowering, tough little plant, found naturally on sea cliffs. A good plant for the rockery or front of the border. Also good in pots and containers.				
<i>Artemisia</i> 'Powis Castle'	Black 2L	Yellow	60cm	✓
Grown for its aromatic silver foliage this shrubby perennial is ideal for a sunny border. It has fine, feathery silver foliage with tiny yellow flowers in late summer.				
<i>Aruncus diocius</i>	Black 2L	White	1.5 - 2m (4 - 6ft)	✓
A good plant for the back of the border. In early summer beautiful plumes of feathery white flowers are produced above toothed mid-green leaves.				
<i>Aster x frikartii</i> 'Mönch'	Black 2L	Blue	90cm (40inch)	✓
A traditional Aster for the back of the border. It has a long flowering season and should not require staking. It has lavender-blue single daisy like flowers.				
<i>Astilbe japonica</i> 'Etna'	Black 2L	Red	60cm	
A compact Astilbe with deeply divided dark green foliage, above which plumes of vivid red flowers are held. Fantastic for brightening up a shady space.				
<i>Astilbe simplicifolia</i> 'Sprite'	Black 2L	Pink	up to 45cm	✓
In summer pale pink sprays of flowers on arching stems are held above glossy dark green deeply divided leaves.				
<i>Astilbe x arendsii</i> 'Bressingham Beauty'	Black 2L	Pink	60 - 90cm	
One of the taller varieties of Astilbe and ideal for a moist spot. Feathery pink plumes appear above serrated mid-green leaves in July.				
<i>Astilbe x arendsii</i> 'Diamant'	Black 2L	White	90cm	
A fine plant for a moist shady situation. The divided foliage is tinted bronze in spring turning to green. In early summer dense sprays of white flowers are held above the foliage.				
<i>Astrantia major</i>	Black 2L	White	60 - 90cm	
A long flowering variety of Astrantia. It has white flower heads with strap-shaped bracts which are often tinged pink held above deeply lobed foliage.				
<i>Astrantia major</i> 'Ruby Wedding'	Green 2L	Red	90cm	
A clump-forming herbaceous perennial with a loose rosette of deeply lobed mid green basal leaves. Erect stems carry stunning ruby-red pincushion flowers which have a hint of white at the base of each petal.				

Plant	Pot Size	Flower	Height	AGM
<i>Astrantia major</i> 'Star of Billion'	Green 2L	White	45 - 75 cm	
Great for use as a cut flower but also a nice garden plant. It produces masses of pin-cushion like flowers in clusters on straight, much-branched stems. They open pale green, change to pale pink then finally to white.				
<i>Astrantia major</i> 'Venice'	Green 2L	Red	50cm	
A popular perennial for a shady spot in the garden. It has palm like green leaves at the base of the plant. On wiry stems tight posies of deep ruby flowers are surrounded by long lasting bracts.				

B

<i>Bergenia</i> 'Abendglut'	Green 2L	Red	20 - 30cm (8 - 10inch)	✓
In spring beautiful magenta-crimson flowers appear held on red stems above a rosette of red-tinted dark green leaves. A good plant for the woodland or front of border.				
<i>Bergenia</i> 'Bach'	Green 2L	Pink White	40cm	
Large heads of pale sugar-pink flowers (which Mature white) sit above oval glossy leaved foliage. The leaves are beautifully red-flushed in winter.				
<i>Bergenia</i> 'Bressingham White'	Green 2L	White	up to 40cm (16inch)	✓
An excellent white flowered <i>Bergenia</i> producing an abundance of white flowers in late spring above rich green foliage.				
<i>Bergenia</i> 'Eroica'	Green 2L	Pink	45cm	✓
The foliage forms a low clump of bold, glossy green leaves, which turn a stunning beet-red shade during winter. In mid spring stems of vivid magenta-purple flowers rise above the shiny foliage.				
<i>Brunnera macrophylla</i>	Black 2L	Blue	30 - 45cm	✓
Delicate bright blue flowers appear in spring above deep green leaves. An excellent ground cover plant for shady areas.				
<i>Brunnera macrophylla</i> 'Silver Heart'	Green 2L		15 - 45 cm	
A fabulous ground cover plant for a semi shady spot. It has large heart-shaped leaves with a silvered surface almost mirror-like. In spring sprays of bright blue flowers in the style of forget-me-nots are produced.				
<i>Campanula</i> 'Iridescent Bells'	Green 2L	Purple	60cm	
This <i>Campanula</i> has a unique flowering habit and colour. The buds are intense dark purple, opening into beautiful soft lavender blue bells. Flowers are produced from May to November.				
<i>Campanula</i> 'Sarastro'	Green 2L	Purple	60cm	
A compact plant which forms a clump of downy green leaves. In late summer nodding, deep violet, bell shaped flowers are produced.				
<i>Campanula carpatica</i> 'Perla White'	Black 1L	White	20cm	
This new variety of <i>Campanula</i> has large upright facing bowl shaped white flowers over a mound of green foliage.				
<i>Campanula lactiflora</i> 'Lodden Anna'	Black 2L	Pink	1.2m	✓
A tall <i>Campanula</i> good for the back of the border. In summer racemes of large bell-shaped soft pink flowers are carried on slender stems. May require staking.				

Plant	Pot Size	Flower	Height	AGM
<i>Campanula lactiflora</i> 'Prichards Variety'	Black 2L	Blue Purple	up to 100cm	✓
A tall <i>Campanula</i> good for the back of the border. In summer a profusion of large bell-shaped violet blue flowers are carried on top of robust oval leaved stems. May require staking.				
<i>Campanula persicifolia</i>	Black 1L Black 2L	Blue	60 - 80 cm	
A lovely member of the bellflower family producing elegant stems of blue flowers in mid-summer. An excellent choice for the middle of the border.				
<i>Campanula persicifolia</i> 'Var. Alba'	Black 1L Black 2L	White	60 - 80cm	
A beautiful white version of the peach-leaved bellflower with bright clear pure white flowers during July and August. Excellent in the middle of a border.				
<i>Campanula takesimana</i> 'Elizabeth'	Black 2L	Pink Purple	up to 1m	
Pendants of bell shaped pink-purple flushed flowers are produced above rosettes of heart shaped green leaves.				
<i>Centaurea dealbata</i>	Black 2L	Pink	6 - 90cm	
A clump forming perennial good for the back of the border. It has bright green foliage and in summer produces white centred pink flowerheads which are good for cutting.				
<i>Centaurea montana</i> 'Bright Blue'	Black 1L Black 2L		50cm	
A spreading plant with a round compact habit which produces attractive blue flowers. The flowers heads have thistle like centres surrounded by star-shaped ray petals.				
<i>Ceratostigma plumbaginoides</i>	Black 2L	Blue	30 - 40cm	✓
A sun loving plant which will provide colour late in the season. This variety is a low growing spreading plant with reddish stems and green leaves which turn bright red in autumn. From September clusters of vivid blue flowers open at the end of stems.				
<i>Chelone</i> 'obliqua'	Black 2L	Pink	60cm	
Late Summer/Autumn flowering plant. Will grow in most types of soil including poorly draining and clay. The pink flowers, shaped like a tortoise head, cluster at the tip of the robust upright stems.				
<i>Chrysanthemum</i> 'Clara Curtis'	Black 2L	Pink	75cm (30inch)	
Clara Curtis is a fantastic <i>Chrysanthemum</i> which produces masses of long lasting, scented pink flowers.. It is shorter than some <i>Chrysanthemums</i> but forms a nice bushy plant in the border.				
<i>Chrysanthemum</i> 'Tapestry Rose'	Black 2L	Pink	up to 75cm (30inch)	
A hardy <i>Chrysanthemum</i> with a dense habit and single daisy like flowers. It flowers over a long period in autumn and is ideal for the late border. The flowers are deep pink with green centres held above dissected mid-green foliage.				
<i>Cirsium rivulare</i> 'Atropurpureum'	Black 2L	Red Purple	90cm	
Hardy upright perennial with clumps of branching, leafy stems with round, deep red flower-heads that appear in June/July followed by attractive seed heads. Will grow in full sun or part shade in a well drained but moist soil. Will tolerate some dryness.				

Plant	Pot Size	Flower	Height	AGM
<i>Coreopsis</i> 'Red Shift'	Black 1L	Red	up to 60cm	
Flowering over a longer period this <i>Coreopsis</i> has feathery foliage and large daisy like flowers. The flowers are cream coloured with a red centre. The red centre gradually increases as the summer progresses so that the flowers become ruby red.				
<i>Coreopsis lanceolata</i> 'Sterntaler'	Black 2L	Yellow	30 - 40cm	
A profusion of bright yellow flowers with a mahogany blotch at the base of each petal. Will add a splash of colour to a summer border or patio planter.				
<i>Coreopsis verticillata</i> 'Moonbeam'	Black 2L	Yellow	up to 50cm	✓
This showy plant has large bright yellow flowers above dark green divided leaves.				
<i>Coreopsis verticillata</i> 'Zagreb'	Black 2L	Yellow	up to 40cm	✓
A compact plant with small bright yellow flowers over a long period above attractive fern like foliage.				
<i>Crocosmia</i> 'Emily McKenzie'	Black 2L Green 2L	Orange	60cm (36inch)	
Good for adding impact to the late summer border. Emily McKenzie has arching spikes of orange-red freesia like flowers, held above sword like green foliage.				
<i>Crocosmia</i> 'Lucifer'	Black 2L	Red	up to 1.2m	✓
A vibrant perennial perfect for the mixed border. In late summer sprays of bright-red funnel shaped flowers appear amongst sword like green foliage.				
<i>Crocosmia x crocosmiiflora</i> 'George Davison'	Black 2L	Yellow	1.2m	
A wonderful plant for the late summer border. It has sword like green leaves amongst which large rich amber-yellow freesia like flowers are held on arching stems.				
<i>Crocosmia x crocosmioides</i> 'Emberglow'	Black 2L	Red	up to 90cm	
A bold plant ideal for bringing a splash of colour to the late summer border. Amid sword-shaped green foliage dark dusky-red tubular flowers are held on slender stems.				

D

<i>Dahlia</i> 'Bishop of Auckland'	Black 2L	Red	1m	
A fabulous Dahlia with dark foliage and beautiful wine red flowers. A wonderful addition to the late summer border.				
<i>Dahlia</i> 'Bishop of Llandaff'	Black 2L	Red	up to 1m	✓
This popular Dahlia has striking red semi-double flowers held above dissected deep purple foliage. It is a good plant for the late summer border and makes an excellent cut flower.				
<i>Dahlia</i> 'Moonfire'	Black 2L	Yellow	up to 100cm (3ft)	
A wonderful dark leaved Dahlia carrying single pale yellow flowers which are deep red at the centre of the flower.				
<i>Dahlia</i> 'Mystic Dreamer'	Black 2L	Pink White	70cm	
Previously known as Dahlia 'Candy Eye's' this cultivar has bronze foliage and small single flowers which are pink and white in colour. Each petal has a central magenta stripe edged with white.				

Plant	Pot Size	Flower	Height	AGM
<i>Dahlia</i> 'Mystic Illusion'	Black 2L	Yellow	upto 90cm	
A striking plant with dark foliage against which appear bright, single, lemon yellow flowers. Requires a sunny position to flourish in a rich well drained but moisture retentive soil. Also suitable for growing in large containers. Lift after first frost and store in a cool place and replant in the late spring.				
<i>Delphinium</i> 'Blue Lace'	Black 1L	Blue	120cm	
The New Millennium Delphiniums perform better than other tall varieties and offer some astonishingly rich shades. 'Blue Lace' produces tall, stately spires of double light sky-blue flowers with a pinkish tinge.				
<i>Delphinium</i> 'Double Innocence'	Black 1L	White	120 cm	
One of the New Millennium Delphiniums which perform better than other tall varieties and offer some astonishingly rich shades. 'Double Innocence' produces tall spires with frilly double creamy white flowers.				
<i>Delphinium</i> 'Dusky Maidens'	Black 2L	Pink	120 cm	
'Dusky Maidens' is one of the New Millennium Delphiniums which perform better than other tall varieties and offer some astonishingly rich shades. It produces tall spires of pink flowers with a brown bee.				
<i>Delphinium</i> 'Magic Fountain Dark Blue/White Bee '	Black 2L	Blue	1m (3ft)	
The magic fountain series is shorter than traditional Delphiniums. The flower spikes last over a long period and there are many colours in the series. Dark Blue has dark blue cup shaped flowers with a white Bee in the centre of each flower.				
<i>Delphinium</i> 'Magic Fountain Sky Blue/White Bee'	Black 2L	Blue	1m (3ft)	
The magic fountain series is shorter than traditional Delphiniums. The flower spikes last over a long period and there are many colours in the series. Sky Blue has pale blue cup shaped flowers with a white Bee in the centre of each flower.				
<i>Delphinium</i> 'Magic Fountain White/Dark Bee'	Black 2L	White	1m (3ft)	
The magic fountain series is shorter than traditional Delphiniums. The flower spikes last over a long period and there are many colours in the series. White with Dark Bee has white cup shaped flowers with a dark Bee in the centre of each flower.				
<i>Dianthus</i> 'Arctic Star'	Black 1L	White	7 - 10cm	
A delightfully compact variety which produces a neat mound of grey-green leaves. In summer scented double white flowers are produced in abundance.				
<i>Dianthus</i> 'India Star'	Black 1L	Pink	10 - 12cm ✓	
A delightfully compact variety which produces a neat mound of grey-green leaves. In summer scented cerise flowers with ruby centres appear.				
<i>Dianthus</i> 'Passion'	Black 1L	Red	25 - 30 cm	
Bred by Whetman Pinks and part of their scent first collection. 'Passion' bears masses of double, cherry-red flowers above a neat mound of soft, grey-green leaves. Flowering from late spring through summer providing a wonderful scent in the garden.				
<i>Dianthus</i> 'Raspberry Sundae'	Black 1L	Pink	20cm	
Beautifully perfumed blush pink flowers with crimped edges and a raspberry eye. A naturally compact plant which flowers later than many in this range.				
<i>Dicentra</i> 'King of Hearts'	Green 2L	Pink	25cm	
This variety of Dicentra produces a clump of lacy soft blue-green foliage. Above which clusters of delicate bright rose heart-shaped flowers dangle from their stems. Excellent for edging, and very useful for mixed containers and tubs. Removing faded flowers will promote lots of new buds to form.				

Plant	Pot Size	Flower	Height	AGM
<i>Digitalis</i> 'Dalmation Peach'	Black 1L	Pink Orange	Upto 50cm	
Spikes of trumpet like peach coloured flowers with pink spots inside appear in the early summer months. As a dwarf variety with well branched stems it is suited to being placed in a mixed border. It may flower in its first year reaching upto 50cm. Will grow in part shade to full sun in a moisture retentive soil				
<i>Digitalis</i> 'Dalmation Purple'	Black 1L	Purple	up to 50cm	
Dwarf variety of Foxglove reaching upto 50cm. Spikes of purple flowers with dark purple spots inside appear Spring/Early Summer. Part Shade/Full sun moisture retentive soil.				
<i>Digitalis purpurea</i> 'Excelsior Hybrids'	Black 1L	Pink White Yellow	60 - 90cm	✓
A good plant for the back of the border. The foliage forms a rosette at the base of the plant and bell like flowers are borne on tall spikes. Flowers are pastel shades of creamy yellow, white, purple or pink.				
<i>Doronicum orientale</i> 'Leonardo'	Black 1L	Yellow	20-30cm	
Early flowering perennial, bright yellow daisy like flowers appear above fresh green leaves from April onwards. This variety is compact and thrives in a part shade/full sun position. Deadhead to encourage further flowering.				
<i>Doronicum orientale</i> 'Little Leo'	Black 1L	Yellow	30cm	
Doronicum 'Little Leo' is a dwarf perennial ideal for the front of the border. It produces a neat mound of heart-shaped green leaves in April-May topped with cheerful bright golden-yellow daisy flowers. Popular with bees and good as a cut flower. Thrives in any reasonably fertile well-drained soil, in dappled shade, out of hot sun. Ideal at the front of a mixed border among shrubs or under trees in light woodland.				
E				
<i>Echinacea purpurea</i>	Black 1L Black 2L	Pink	1 - 1.5m	
A wonderful plant for the back of the border it sometimes has red-tinted green stems. From mid-summer has pink flowers with golden brown centre cones.				
<i>Echinacea purpurea</i> 'Avalanche'	Black 2L	White	60cm	
Great for a container or at the front of the border. 'Avalanche' is a dwarf variety with snowy white rays surrounding a yellow green center. Flowers from mid summer to early autumn on strong upright stems.				
<i>Echinacea purpurea</i> 'White Swan'	Black 1L Black 2L	White	50 - 60cm	
A wonderful plant for the middle of the border, 'White Swan' has bold, daisy-like flowerheads. White reflexed petals surround an orange-brown central cone. Flowers from mid summer to early autumn.				
<i>Echinops ritro</i>	Black 1L	Blue	60cm	✓
An architectural plant with attractive globe shaped flowerheads. This compact variety has stiff spiny leaves and metallic blue flowers which mature to a brilliant blue.				
<i>Epimedium x rubrum</i>	Green 2L	Red	20 - 25cm	✓
A good ground cover plant for the shady garden. It has heart shaped green leaves which are flushed with red during spring. Above the foliage, in spring, masses of tiny Crimson flowers are held.				
<i>Epimedium x versicolor</i> 'Sulphureum'	Green 2L	Yellow	up to 35cm	✓
A low growing evergreen ideal for early spring colour. The leaves are coppery when young. The spidery flowers are pale yellow in colour and held just above the foliage				

Plant	Pot Size	Flower	Height	AGM
<i>Epimedium x youngianum</i> 'Niveum' A captivating spring flowering woodland perennial. The leaves are composed of tiny leaflets tinged coppery-purple when young. Thin stems bear a single leaf and up to twelve nodding bell shaped white flowers.	Green 2L	White	30cm	✓
<i>Erigeron</i> 'Sea Breeze' A compact plant carrying rich red-purple daisy like flowers in summer above a dense mound of grey-green foliage.	Black 1L	Red	up to 30cm	
<i>Eryngium bourgatii</i> A wonderful architectural plant for the border. In summer cone shaped flowerheads of blue or violet surrounded by spiny bracts are carried on green stems. The flowers are very distinctive and are useful for cutting.	Green 2L	Blue	30 - 55cm	
<i>Eryngium planum</i> An architectural plant with steely blue flower heads, held majestically over green foliage. May require staking.	Black 1L Black 2L	Blue	45 - 60cm	
<i>Erysimum</i> 'Bowles's Mauve' A long flowering wallflower ideal for a sunny border. It has spires of mauve flowers throughout most of the year above grey-green foliage.	Green 2L	Purple	up to 75cm (30inch)	✓
<i>Erysimum</i> 'Constant Cheer' A delicate cottage garden perennial which will flower over a long period. It produces masses of fragrant orange-red flowers in early spring which fade to purple towards summer.	Green 2L	Red Orange	45cm (18inch)	
<i>Erythronium</i> 'Pagoda' An elegant spring flowering plant ideal for moist shady areas of the garden. The delicate yellow flowers are carried on arching stems above glossy green foliage.	Black 2L	Yellow	up to 35cm	✓
<i>Eupatorium dubium</i> 'Baby Joe' This compact variety is perfect for the smaller garden. It forms a bushy upright mound of dark green foliage and carries large umbrella-like heads of magenta-pink flowers in late summer. The dried seed heads offer winter interest.	Black 2L	Pink	up to 75cm	
<i>Euphorbia amygdaloides</i> 'Purpurea' A smaller Euphorbia suitable for a shady area. The purple foliage is held in whorls around stiff stems. Clusters of tiny bright yellow-green flowers are held on top of the stems.	Black 2L	Yellow	50cm	
<i>Euphorbia amygdaloides var robbiae</i> A bushy evergreen with reddish green stems and spoon shaped dark green leaves. Small yellow flowers are produced in spring.	Black 1L	Yellow	50 - 60cm	✓
<i>Euphorbia characias subsp characias</i> 'Tasmanian Tiger' A really good plant for the winter garden. The leaves are grey-green and strongly variegated. The leaf edges vary from white to cream/pale yellow. Conical flower heads appear in spring, made up of creamy bracts with a green eye.	Black 2L	Yellow	up to 1m	
<i>Euphorbia x martini</i> A large plant ideal for the back of the border. It has slightly hairy leaves giving it a silvery sheen and stems flushed with burgundy. In late spring lime green flowers are produced.	Black 2L	Green	up to 90cm	✓

Plant	Pot Size	Flower	Height	AGM
-------	----------	--------	--------	-----

***Euphorbia x martinii* 'Ascot Rainbow'**

Black 2L Green 50cm

A good winter plant with evergreen foliage. The leaves are greyish green and edged with bright gold margins making a colourful display. During the colder months the leaves take on an attractive rosy pink tinge. In spring green flowers are produced towards the tip of each stem, each with a dark contrasting eye.

G

Gaillardia 'Sunset Cutie'

Black 1L Red 30 - 35cm

Gaillardia are valuable for their very long flowering season. They form a low mound of gray-green, hairy leaves and upright stems carry vibrant flowers usually made up of single row of flat petals. Sunset Cutie has two rows of red-bronze petals with a cream border.

Gaillardia 'Sunset Flash'

Black 1L Orange 30 - 35cm

Gaillardia are valuable for their very long flowering season. They form a low mound of gray-green, hairy leaves and upright stems carry vibrant flowers usually made up of single row of flat petals. Sunset Flash has two rows of flat petals, orange-red in colour with yellow tips.

Gaillardia aristata 'Arizona Sun'

Black 1L Red 25 - 30cm

A stunning Gaillardia with single flowers that are rich mahogany red with bright yellow edges. Ideal for the front of the border.

Gaura lindheimeri 'Freefolk Rosy'

Black 1L Pink
White 60cm

Freefolk Rosy is the fully variegated sister of Rosy Jane. It has good yellow variegated leaves with pink/white variegated flowers on tall stems. Flowers from May to October.

***Gaura lindheimeri* 'Passionate Blush'**

Pink 40cm

A compact variety great for a border or container and flowering earlier than other varieties. New growth is burgundy coloured later becoming green. Masses of ruby colored buds on short, dark red stems, open to deep pink blossoms from spring.

Gaura lindheimeri 'Rosy Jane'

Black 1L Pink
White 70cm

A beautiful Gaura with bi-coloured flowers. It is suitable for borders or containers. The flowers are produced from June to September and are white with rose-pink margins.

Gaura lindheimeri 'Whirling Butterflies'

Black 1L White 50 - 60cm

A graceful plant which carries star shaped white flowers on long stems over a long period.

Geranium 'Brookside'

Black 2L Blue 45 - 60cm ✓

This is one of the best blue hardy geraniums. Neat compact foliage and clear blue flowers over a long period during summer. Ideal for near the front of the border.

Geranium 'Johnson's Blue'

Black 2L Blue up to 45
cm ✓

A wonderful spreading Geranium which flowers in early summer. It has cup-shaped lavender-blue flowers with a paler centre and white veining.

Geranium 'Mavis Simpson'

Green 2L Pink up to
20cm ✓

An exceptionally long flowering, low growing Geranium with deeply divided greyish leaves with reddish-brown marks. The flowers have rose-pink petals with a silvery sheen.

Geranium 'Rozanne'

Green 2L Blue
Purple 60cm

An easy to grow perennial with saucer shaped violet-blue flowers with a pale centre and red veins. It will flower prolifically over summer and into autumn.

Plant	Pot Size	Flower	Height	AGM
<i>Geranium cinereum</i> 'Ballerina'	Green 2L	Pink	15cm (6inch)	✓
A small Geranium ideal for the front of the border or rock garden. It has delicate bowl shaped pale pink flowers with deep pink veins held above grey-green foliage.				
<i>Geranium clarkei</i> 'Kashmir White'	Black 2L	White	up to 45cm	✓
Delicate white saucer shaped flowers with purple-pink veins appear in summer over deeply divided green leaves. It will spread to form large drifts making it excellent ground cover.				
<i>Geranium himalayense</i> 'Gravetye'	Green 2L	Blue	30cm	
An excellent Geranium for ground cover. It forms mounds of finely divided green leaves above which lovely cup shaped blue flowers with reddish centres are held.				
<i>Geranium macrorrhizum</i> 'Bevans Variety'	Black 2L	Purple	up to 50cm	✓
A versatile and useful Geranium which will tolerate dry shade. It has deeply divided light green foliage which creates good ground cover. Above the foliage saucer shaped crimson flowers are held throughout summer.				
<i>Geranium macrorrhizum</i> 'Spessart'	Black 2L	White	40 cm	
An excellent Geranium for that dry shady spot. Bright green aromatic foliage and white flowers in late spring.				
<i>Geranium pratense</i> 'Summer Skies'	Green 2L	Pink	60cm	
A fabulous addition to your cottage garden. It produces mauve-pink double flowers throughout the summer. Short and bushy in habit with deeply divided green leaves.				
<i>Geranium sanguineum</i> 'Album'	Black 2L	White	30cm	✓
A dense, clump forming perennial with dark green leaves which take on orange and red tints during autumn. The flowers are pure white and are held above the foliage through summer to autumn.				
<i>Geranium sanguineum</i> 'Glenluce'	Black 2L	Pink	23 - 30cm	
An ideal plant for the cottage garden this low growing Geranium has small rounded leaves, above which large rose-pink flowers are produced.				
<i>Geranium sanguineum</i> 'Striatum'	Black 2L	Pink	20 - 25cm	✓
A low growing hardy geranium ideal for the front of the border or large container. Neat foliage covered in spring with pale pink flowers with darker pink veins.				
<i>Geranium x magnificum</i>	Black 2L	Purple	60cm	✓
A vigorous perennial forming a clump of attractive lobed leaves crowned in midsummer by a mass of rich violet, variegated saucer shaped flowers.				
<i>Geum</i> 'Koi'	Black 1L	Orange	30cm (12inch)	
A low growing perennial which flowers over a long period. 'Koi' has glossy green foliage above which bright orange eye catching flowers appear. Ideal for a border or container.				
<i>Geum</i> 'Lady Stratheden'	Black 1L Black 2L	Yellow	45-60cm	✓
A clump forming perennial with lobed leaves producing yellow flowers which dance loosely on moving flower stems. The cup-shaped double flowers are bright yellow with prominent green stamens.				
<i>Geum</i> 'Mrs Bradshaw'	Black 1L Black 2L	Red	80cm	✓
A clump forming perennial with fresh green lobed lance-shaped leaves. It produces rounded, double crimson flowers borne in small sprays in summer.				

Plant	Pot Size	Flower	Height	AGM
<i>Geum rivale</i> 'Leonard's Variety'	Black 2L	Pink	up to 45cm	
A beautiful variety for the front of the border. It has scalloped deep green leaves above which, on nodding stems, are held orange-pink flowers.				
<i>Gillenia trifoliata</i>	Green 2L	White	75cm	✓
Medium-sized woody perennial. Star like white flowers open in the early summer and contrast against the dark coppery green leaves. Plant in partial shade in a light well drained soil.				

H

<i>Helenium</i> 'Moerheim Beauty'	Green 2L	Orange	90 - 120cm	✓
One of the best known Heleniums. Rich orange - red flowers with dark centres are held well above the leaves from early August well into the autumn. A very good border plant.				
<i>Helenium</i> 'Sahin's Early Flowerer'	Green 2L	Orange	1m	✓
This is surely one of the best Heleniums. Beautiful large flowers of orange - red streaked with yellow simply glow in the afternoon sunshine. Flowers from early July well into the autumn.				
<i>Helenium</i> 'Waltraut'	Green 2L	Orange	75 - 100 cm	✓
Copper orange flowers held high above mid-green foliage. Ideal border plant flowering from July to late autumn.				
<i>Helenium autumnale</i> 'Fuego'	Green 2L	Red Yellow Orange Brown	40 - 50cm	
This is a relatively new compact form of Helenium. From late summer it is topped with masses of showy daisy like flowers. These are made up of yellow-based, orange-red petals and a central cone that changes from brown to yellow as the head matures.				
<i>Helenium autumnale</i> 'Sombbrero'	Green 2L	Yellow	40 - 50cm	
This is a relatively new compact form of Helenium with dark green foliage. From late summer it is topped with masses of showy daisy like bright yellow flowers. A good addition for the autumn border.				
<i>Helianthemum</i> 'Ben Fhada'	Black 1L	Yellow	20cm	
Ideal for rock gardens and raised beds. It has bright yellow flowers with contrasting orange centres throughout summer.				
<i>Helianthemum</i> 'Ben Hope'	Black 1L	Pink	20-30cm	
Helianthemums are excellent for growing in a rock garden or at the front of a hot sunny border. Ben Hope produces single crimson pink flowers with a vivid yellow centre, over a mound of olive-green foliage.				
<i>Helianthemum</i> 'Ben Ledi'	Black 1L	Pink	up to 30cm	
A vigorous low growing evergreen suitable for gravel gardens and rockeries which flowers in late spring. 'Ben Ledi' produces a profusion of rose pink saucer shaped flowers with yellow centres above a mound of deep green foliage.				
<i>Helianthus</i> 'Happy Days'	Black 2L	Yellow	55cm	
A short perennial sunflower with dark green foliage. At the top of short stems double yellow daisy like flowers are produced. A good plant for the middle of a border.				
<i>Helianthus</i> 'Lemon Queen'	Black 2L	Yellow	150 - 200cm	✓
A tall imposing clump forming plant ideal for the back of a border. Masses of large lemon yellow flowers are produced from mid to late Summer. Requires a sunny position in a moist but well drained soil.				

Plant	Pot Size	Flower	Height	AGM
<i>Helianthus</i> 'Suncatcher Pure Gold' A perennial sunflower producing masses of bright yellow flowers over green foliage. A great plant for a container or border.	Black 2L	Yellow	80cm	
<i>Heliopsis helianthoides</i> 'Summer Pink' A medium sized plant with multi-coloured pink, green and white leaves with purple veining on dark red stems. At the top of the stems large daisy-like bright yellow flowers appear in summer. Removing faded flowers regularly will greatly extend the flowering period.	Green 2L	Yellow	55cm	
<i>Hemerocallis</i> 'Black Prince' Perennial with large, deep maroon-red Lily-like flowers mid to late summer. It enjoys a moist, well drained soil in full sun. Tolerant of exposed sites. Suitable for difficult to grow in soils such as clay and chalk	Black 2L	Red Orange Brown	60 - 70cm	
<i>Hemerocallis</i> 'Burning Daylight' Daylily flowers last just one day but may produce a flush of flowers lasting two to three weeks. This variety produces fragrant orange flowers which have wavy inner petals carried in lush foliage.	Green 2L	Orange	up to 70cm	✓
<i>Hemerocallis</i> 'Catherine Woodbery' Daylily flowers last just one day but may produce a flush of flowers lasting two to three weeks. This variety produces fragrant orchid pink flowers with a green throat.	Black 2L	Pink	up to 75cm	
<i>Hemerocallis</i> 'Chicago Apache' Daylily flowers last just one day but may produce a flush of flowers lasting two to three weeks. This variety is rather vigorous and will thrive in almost any condition. It produces ruffled scarlet flowers with black anthers above lush foliage.	Black 2L	Red	up to 70cm	
<i>Hemerocallis</i> 'Happy Returns' A smaller Day Lily with pale yellow funnel shaped flowers. It will flower over a long period during summer but each flower only lasts a day.	Black 2L	Yellow	45cm	
<i>Hemerocallis</i> 'Stella de Oro' A popular daylily that performs well. It forms a dense clump of grassy green foliage above which golden-yellow trumpet shaped flowers are held.	Black 2L	Yellow	25 - 30cm	
<i>Hesperantha coccinea</i> 'Jennifer' A late flowering perennial which will bring elegance and colour to the garden. It has slender sword like green leaves which surround the flowering stems. Jennifer has large pink flowers with broad round-tipped petals.	Green 2L	Pink	up to 60cm	✓
<i>Hesperantha coccinea</i> 'Professor Barnard' Great for cut flowers and ideal for adding a splash of colour to the late summer border. Slender sword-shaped green leaves surround the flower stems which carry spikes of deep pink flowers.	Green 2L	Pink	up to 80cm	
<i>Hesperantha coccinea</i> 'Wilfred H. Bryant' A new and beautiful variety of the kaffir Lily. Large very pale pink flowers from late summer well into the autumn. Good near water or in a border, or in a container.	Green 2L	Pink	up to 80cm	✓

Plant	Pot Size	Flower	Height	AGM
<i>Hesperantha coccinea alba</i>	Green 2L	White	up to 80cm	
Great for cut flowers and ideal for adding a splash of colour to the late summer border. Slender sword-shaped green leaves surround the flower stems which carry spikes of delicate white flowers throughout late summer.				
<i>Heuchera</i> 'Amethyst Mist'	Green 2L	White	up to 60cm	
This evergreen has attractive sharply lobed burgundy leaves which are silvered between the veins. In summer small whitish flowers are produced above the foliage.				
<i>Heuchera</i> 'Berry Smoothie'	Green 2L	Pink	60cm	
A stunning Heuchera with a big bold habit making it ideal for ground cover for a semi-shady position. The foliage is purple-pink in colour with silver veining and darkens as the leaves mature. Small soft pink flowers appear in spring.				
<i>Heuchera</i> 'Delta Dawn'	Green 2L	White	20-25cm	
Heucheras offer a tremendous range of foliage colours especially for shady areas. Delta Dawn forms a sturdy mound of rounded leaves with gold to lime colouring and red veining. Sprays of white bell flowers appear in June.				
<i>Heuchera</i> 'Electra'	Green 2L	White	30cm (12inch)	
One of the most intensely coloured varieties available. The large palmate leaves are a bright golden yellow with red veining. In autumn the leaves darken to a yellow-green gradually producing shades of tan towards and throughout winter.				
<i>Heuchera</i> 'Firefly'	Black 1L Black 2L	Red	60 - 75cm	
A good ground cover plant with dark green lobed leaves. In summer bears fragrant red-pink flowers on short stems. Prefers a well drained soil.				
<i>Heuchera</i> 'Lime Marmalade'	Green 2L	White	35cm	
A fabulous plant grown for its foliage. Lime Marmalade is a vigorous variety which could be used at the front of the border or as a specimen in a pot. The leaves are lime green in colour and have softly ruffled edges. In summer spires of white flowers are held above the foliage.				
<i>Heuchera</i> 'Marmalade'	Green 2L	Red	40cm	
A great plant grown mainly for its colourful foliage. It has ruffled leaves which are reddish-purple when young maturing to yellowish bronze with a purple underside. In summer spires of red flowers are held above the foliage.				
<i>Heuchera</i> 'Southern Comfort'	Green 2L	White	55cm	
Heucheras offer a tremendous range of foliage colours especially for shady areas. Southern Comfort has large lobed leaves, cinnamon peach in colour changing to copper and amber as they mature. Sprays of creamy-white flowers are produced in late summer.				
<i>x Heucherella</i> 'Stoplight'	Green 2L	Cream	25cm (10inch)	
A hybrid between Heuchera and Tiarella this is an excellent ground covering perennial grown for its fabulous foliage. It has yellow leaves with maroon veining. In spring and summer stems of tiny bell shaped creamy-pink flowers are produced.				
<i>x Heucherella</i> 'Tapestry'	Green 2L	Pink	30cm	
A superb ground covering evergreen with attractive foliage and flowers. It has green and silver mottled leaves with dark bronze veining. In summer spires of pink flowers are held above the foliage.				
<i>Hosta</i> 'August Moon'	Black 2L	Purple	up to 70cm	
A wonderful Hosta with heart shaped crinkled golden leaves. In summer spikes of bell-shaped lavender flowers are produced.				

Plant	Pot Size	Flower	Height	AGM
<i>Hosta</i> 'Golden Tiara' A small <i>Hosta</i> with beautiful heart shaped mid-green leaves which are tinged with light green streaks and have creamy-yellow margins. In summer Lavender coloured bell shaped flowers are produced above the foliage.	Black 2L	Purple	38 cm	✓
<i>Hosta</i> 'Krossa Regal' Dramatic plant with powdery-blue oval shaped leaves with wavy edges. In early August lavender flowers are carried above the foliage on tall stems.	Black 2L	Blue	Up to 1.5m	✓
<i>Hosta</i> 'Red October' A small to medium <i>hosta</i> which produces an arching mound of deep green foliage. The leaves are silvery-white beneath held on distinctive red stems. Funnel-shaped lavender flowers appear in late summer.	Black 2L	Purple	40cm	
<i>Hosta</i> 'Royal Standard' A superb <i>Hosta</i> which forms a mound of bright green foliage above which sit spikes of fragrant white flowers.	Black 2L	White	up to 90cm	✓
<i>Hosta</i> 'Wide Brim' One of the best <i>Hostas</i> available, <i>Wide Brim</i> has heart shaped puckered leaves which are mid green in colour with wide cream edges. In summer spikes of funnel shaped lavender blue flowers are held above the foliage.	Black 2L	Blue	75cm	✓
<i>Hosta</i> 'Wolverine' <i>Hosta's</i> form a mound of foliage topped with lily-like blooms. <i>Wolverine</i> has pointed blue-green leaves with a cream-gold margin. Lavender flowers appear in August.	Black 2L	Purple	45cm	
<i>Hosta fortunei</i> 'Francee' This <i>Hosta</i> has heart-shaped puckered green leaves with a white margin. In summer spikes of pale purple flowers are carried above the foliage. Good in a container or to lighten a shady spot in the garden.	Black 2L	Purple	45 - 55cm	✓
<i>Hosta sieboldiana</i> 'Blue Angel' A shade loving perennial good as a specimen plant or as ground cover in a shady area. It has large oval blue-green leaves and in summer produces spikes of near white bell shaped flowers.	Black 2L	White	up to 1m	✓
<i>Hosta sieboldiana</i> 'Frances Williams' This <i>Hosta</i> has heart shaped puckered leaves which are grey-green in colour with wide yellow edges. In summer it produces small spires of pale lilac flowers.	Black 2L	Purple	up to 100cm	✓

I

<i>Iris</i> 'Action Front' A classic iris for the cottage garden. The flowers are strongly scented and Garnet red in colour. The falls are a deeper red with some veining in the throat of the flower.	Green 2L	Red	85cm	
<i>Iris</i> 'Cherry Garden' A dwarf variety forming neat clumps. Attractive claret coloured flowers borne in profusion in the late Spring. Pale green upright pointed leaves give added interest to the border throughout the year.	Green 2L	Red Purple	30cm	
<i>Iris</i> 'Green Spot' A dwarf bearded <i>Iris</i> perfect for the front of the border or rock garden. In summer it has white waxy flowers with green spots on the falls.	Green 2L	White	25 - 30cm	✓
<i>Iris</i> 'June Prom' A taller <i>Iris</i> which has the palest blue flowers with dull green veining on the falls and a blue-orange beard.	Green 2L	Blue	45cm	

Plant	Pot Size	Flower	Height	AGM
<i>Iris</i> 'Madeira Belle'	Green 2L	White	Flowering height upto 80cm	
Tall bearded Iris with bright white ruffled flowers borne on long stems in May/June. Enjoys a sunny position and well drained soil, after flowers the plants leaves make an interesting architectural addition to the border.				
<i>Iris</i> 'Orange Caper'	Green 2L	Yellow	20cm	
A dwarf Iris with bright yellow flowers with a hint of orange and rich orange russet beard.				
<i>Iris</i> 'Rajah'	Green 2L	Red Yellow	75cm	
A fabulous Iris with a rich fruity spicy scent. The flowers are outstanding with velvety rich, dark burgundy falls with splashes of yellow, topped by bright butter-yellow standards.				
<i>Iris sibirica</i> 'Dreaming Yellow'	Green 2L	Cream Yellow	60cm	
A clump forming perennial with green sword shaped leaves. Amongst the leaves, in spring, thin stems carry creamy white flowers with a splash of yellow.				
<i>Iris sibirica</i> 'Flight of Butterflies'	Green 2L	Purple	60cm	
A clump forming perennial with narrow sword shaped green leaves. Amongst the leaves purple and blue veined flowers are held on tall thin stems.				

K

<i>Kalimeris incisa</i> 'Blue Star'	Black 2L	Blue	45cm	
A fantastic hardy daisy like plant ideal for a container or front of the border. It forms a low mound of foliage above which an abundance of pale blue daisy like flowers sit.				
<i>Kniphofia</i> 'Bees' Lemon'	Green 2L	Yellow	1m	
A late summer flowering Kniphofia. It has spikes of tubular green-tinged yellow flowers held on stiff stems. The foliage is green and grass like with serrated edges. Ideal for the back of the border.				
<i>Kniphofia</i> 'Moonstone'	Green 2L	Cream	85cm	✓
A fabulous plant for the middle of the border. The flower spikes progressively change to lighter shades as the flowers open. Moonstone has heads of cream flowers from burnt cream buds held on bronzed stems.				
<i>Kniphofia</i> 'Royal Castle'	Black 2L	Yellow Orange	up to 1m	
An evergreen perennial with arching grass like leaves. Ideal for the back of the border. This variety produces flower spikes in vibrant shades of orange and yellow.				
<i>Kniphofia</i> 'Tawny King'	Green 2L	Cream	1.25m	✓
Fabulous for adding height and structure to a border. 'Tawny King' produces spikes of creamy-brown bell shaped flowers on bronze stems above sword like green foliage.				
<i>Kniphofia</i> 'Wrexham Buttercup'	Green 2L	Yellow	100cm	✓
A large Kniphofia which would add height and drama to the late summer border. 'Wrexham Buttercup' produces green flower spikes which age to a golden yellow.				

L

<i>Lamium galeobdolon</i> 'Hermann's Pride'	Black 1L	Yellow	60cm	
A fantastic ground cover plant for a shady position. It has fantastic green leaves streaked with silver above which clusters of small hooded yellow flowers are held in spring.				

Plant	Pot Size	Flower	Height	AGM
<i>Lamprocapnos</i> 'Gold Heart'	Green 2L	Pink White	60 - 75cm	
A new variety with golden yellow foliage. Racemes of pink and white heart shaped flowers are held on fleshy pink stems.				
<i>Lamprocapnos spectabilis</i>	Black 2L	Pink White	60 - 90cm	✓
Unusual pink and white flowers held delicately above attractive mid-green foliage. A good plant for an open or semi-shady spot in the border. Flowers April - June. Quite hardy.				
<i>Lamprocapnos spectabilis</i> 'Alba'	Black 2L	White	60 - 90cm	✓
Unusual heart shaped white flowers held delicately above attractive mid-green foliage. A good plant for an open or semi-shady spot in the garden. Flowers April - June.				
<i>Lavandula angustifolia</i> 'Munstead'	Black 1L Black 2L	Blue Purple	50 - 60 cm	
Small aromatic shrub with drifts of blue flowers in late summer. Likes well drained fertile soil and a sunny position.				
<i>Lavandula stoechas</i> 'Kew Red'	Black 1L	Red	up to 60cm	
An early flowering French Lavender with grey green aromatic foliage. It produces flat flowerheads with tiny cerise flowers above which pale pink flags emerge.				
<i>Lavandula x intermedia</i> 'Edelweiss'	Black 1L	White	60 cm	
An evergreen shrub with grey green foliage and aromatic flowers ideal as a low hedge. The flowers are produced on spikes at the top of leafless stems. They are white with a hint of blue.				
<i>Leucanthemum</i> 'Banana Cream'	Green 2L	Yellow	45cm	
Shasta Daisies are great for the perennial border. The cheery flowers begin to appear in early summer and continue on for several months if regularly deadheaded. This variety has lush-looking dark green foliage and throughout summer large, pale yellow flowers appear, fading to white as they mature.				
<i>Leucanthemum x superbum</i> 'Aglaiia'	Black 2L	White	50cm	✓
An indispensable showy daisy that provides a profusion of blooms in summer. Aglaiia is a neat plant with frilly, nearly double white flowerheads with a yellow centre.				
<i>Leucanthemum x superbum</i> 'Broadway Lights'	Green 2L	Yellow	45cm	
An excellent plant for the middle of the border or a container. It has large daisy like flowers which are produced over a long period. The flowers open one by one to reveal pale butter yellow petals and bright gold centres.				
<i>Leucanthemum x superbum</i> 'Silver Princess'	Black 1L Black 2L	White	up to 30cm	
A beautiful dwarf variety of Chrysanthemum. It has large white daisy like flowers throughout summer. Looks good at the front of the herbaceous border.				
<i>Leucojum aestivum</i>	Black 1L	White	50cm	
A spring flowering bulb with long strap shaped basal leaves. Heads of pendant bell shaped white flowers with green tips are held on leafless stems. A lovely addition to the spring border.				
<i>Liatris spicata</i>	Black 1L	Pink Purple	70 - 75cm	
Popular as cut flowers. Impressive spikes of pinkish-purple flowers are carried on slightly hairy green stems in late summer.				
<i>Ligularia dentata</i> 'Desdemona'	Black 2L	Orange	1m	✓
A fabulous perennial for a moist shady position. It has large kidney shaped toothed leaves above which fabulous orange daisy like flowers are held.				

Plant	Pot Size	Flower	Height	AGM
<i>Ligularia stenocephala</i> 'The Rocket' A very impressive plant for a bog garden or moist border. Large glossy leaves emerge in early spring. Tall spikes of bright yellow flowers on dark stems during July and August.	Green 2L	Yellow	180cm	✓
<i>Linaria</i> 'Peachy' This is a beautiful and unusual variety of toadflax. It forms an elegant and erect plant in the garden with greyish green foliage. The stems carry racemes of snap-dragon like creamy peach coloured flowers, with hints of yellow and pink for virtually the whole summer.	Black 2L	Pink Yellow	up to 1M	
<i>Liriope muscari</i> 'Big Blue' An evergreen perennial which forms clumps of strap shaped leaves with stalks of lilac flowers. The leaves are dark green and provide all year round interest. In autumn large wands of violet flowers are produced above the foliage.	Black 2L	Purple	Height 45cm	
<i>Liriope muscari</i> 'Okina' An evergreen perennial which forms clumps of strap shaped leaves with stalks of lilac flowers in the summer. The leaves emerge a very eye-catching white in spring and become streaked through the season, turning all green in autumn. A strikingly different type of variegated plant for part shade.	Green 2L	Purple	30cm	
<i>Lithodora diffusa</i> 'Heavenly Blue' A low growing evergreen shrubby plant with small hairy green leaves and masses of bright blue flowers in early spring and summer. Ideal for a rock or gravel garden.	Black 1L	Blue	10 - 15cm.	✓
<i>Lobelia cardinalis</i> 'Queen Victoria' This Lobelia has lovely burgundy-bronze foliage with beautiful red flowers spikes during summer.	Black 1L	Red	80cm	✓
<i>Lupin</i> 'Gallery Blue Shades' The lupin has been a favourite with gardeners for decades! This modern strain is sturdy and compact with many spires of blue flowers in mid summer.	Black 1L Black 2L	Blue	70cm	
<i>Lupin</i> 'Gallery Red Shades' The lupin has been a favourite with gardeners for decades! This modern strain is sturdy and compact with many spires of red flowers in mid summer.	Black 1L Black 2L	Red	50 - 70cm	
<i>Lupin</i> 'Gallery Rose Shades' The lupin has been a favourite with gardeners for decades! This modern strain is sturdy and compact with many spires of rose pink flowers in mid summer.	Black 1L Black 2L	Pink	50 - 70cm	
<i>Lupin</i> 'Gallery White Shades' The lupin has been a favourite with gardeners for decades! This modern strain is sturdy and compact with many spires of white flowers in mid summer.	Black 1L Black 2L	White	50 - 70cm

<i>Lysimachia nummularia</i> 'Aurea' Ideal for ground cover or hanging baskets. The stems are covered in pairs of bright yellow rounded leaves and in summer it carries cup shaped yellow flowers.	Black 1L	Yellow	up to 5cm	✓

Plant	Pot Size	Flower	Height	AGM
<i>Lysimachia punctata</i>	Black 2L	Yellow	up to 90cm	
Bright yellow cup-shaped flowers appear in summer at the top of leafy stems. A vigorous plant tolerant of most soil conditions.				
<i>Lysimachia punctata</i> 'Alexander'	Black 2L	Yellow	upto 40cm	
A lovely plant worth growing for the fabulous foliage. It has an upright habit with lime green leaves and bright ivory margins. In the spring, the new growth is tinged with pink. In late summer yellow star like flowers are produced up the stems.				
<i>Lythrum salicaria</i> 'Blush'	Black 2L	Pink	80 - 100cm	✓
An ideal plant for a wet garden. Spikes of light pink flowers are held on stems clad with lance shaped hairy green leaves.				

M

<i>Melittis meliosophyllum</i> 'Royal Velvet Distinction'	Black 2L	Pink White	45 cm	
An easy to grow plant for a damp shady position and good for ground cover. It has aromatic green foliage and honey scented orchid like purple and white flowers.				
<i>Mertensia virginica</i>	Black 2L	Pink Blue	45cm	✓
An erect, clump-forming perennial which features loose, terminal clusters of pendulous, trumpet-shaped, blue flowers which bloom in the spring. Flower buds are pink and flowers emerge with a pinkish cast before turning blue. Smooth, oval, bluish green leaves. By mid summer the plant will die back and become dormant				
<i>Monarda</i> 'Fireball'	Black 2L	Red	60 cm	
This architectural herbaceous perennial bears whorls of tightly packed crimson, hooded flowers all the way up its stiff stems, above scented, mid-green leaves. The flowers sit in purple bracts that give it a nice two-tone effect.				
<i>Monarda</i> 'Squaw'	Black 1L Black 2L	Red	up to 1m	✓
A wonderful tall plant for attracting bees and butterflies to the garden. 'Squaw' has distinctive bright red tufted flowers held above aromatic foliage.				
<i>Monarda didyma</i> 'Pocahontas Pink'	Black 2L	Pink	30cm	
A compact variety ideal for containers or the front of the border. It has good resistance to powdery mildew. From June to October bright pink flowers are produced.				
<i>Monarda didyma</i> 'Pocahontas Red Rose'	Black 2L	Red	30 cm	
A compact variety ideal for containers or the front of the border. It has good resistance to powdery mildew. From June to October deep red flowers are produced.				

N

<i>Nepeta</i> 'Six Hills Giant'	Black 2L	Blue	up to 90cm	
Attractive to bees and butterflies this tall nepeta has fragrant, toothed lance-shaped leaves which are grey-green in colour. At the top of the stems whorls of lavender-blue flowers are held.				
<i>Nepeta grandiflora</i> 'Dawn to Dusk'	Black 2L	Pink	up to 90cm	
Spikes of mauve flowers are held above aromatic grey-green foliage during the summer period. Looks great planted in drifts and its floppy habit adds a soft, gentle effect to cottage gardens.				

Plant	Pot Size	Flower	Height	AGM
<i>Nepeta racemosa</i> 'Walker's Low' A more compact Nepeta with stiffer growth than other varieties. It has aromatic mid green leaves, above which spires of purple flowers appear.	Black 2L	Purple	60cm	✓

O

<i>Oenothera fruticosa</i> 'Fyrverkei' A clump forming perennial that produces spikes of fragrant yellow cup-shaped flowers on reddish stems with glossy green foliage.	Black 2L	Yellow	30 cm	✓
<i>Omphalodes verna</i> A fantastic plant for groundcover in a shady area. Omphalodes forms a bright green mound of foliage above which delicate forget-me-not blue flowers are held in Spring.	Black 2L	Blue	15cm	
<i>Omphalodes verna</i> 'Alba' A fantastic plant for groundcover in a shady area. Omphalodes forms a bright green mound of foliage above which delicate forget-me-not like white flowers are held in Spring.	Black 2L	White	15cm	
<i>Ophiopogon planiscapus</i> 'Nigrescens' A low growing plant ideal for the front of the border with dense arching purple-black foliage. In summer tiny purple-pink flowers appear followed by black berries.	Green 2L	Pink Purple	up to 15cm	✓
<i>Origanum</i> 'Rossenkuppel' Ideal for rockeries and gravel gardens this low growing Origanum has dark pinkish purple flowerheads held above purple stemmed mounds of rounded mid-green leaves.	Black 1L	Pink Purple	up to 20cm	✓
<i>Ornithogalum nutans</i> A spring bulb, good for naturalising in drier sites. The flowers are star shaped, silvery green in colour with white margins.	Black 1L	White	30cm	✓
<i>Osteospermum</i> 'Tresco Purple' A hardy perennial which forms a mound of green foliage. In summer Purple daisy like flowers are produced.	Black 1L	Purple	25cm	
<i>Osteospermum jucundum</i> 'Compactum' An evergreen, hardy Osteospermum. It forms a clump of mid green foliage, above which soft pink, daisy like flowers are held. Great for the front of a sunny border or container.	Black 1L	Pink	20cm	

P

<i>Paeonia lactiflora</i> 'Bowl Of Beauty' Beautiful large double flowers, pink outer petals, with pale yellow centres in late spring. A truly traditional herbaceous perennial for the middle of a border.	Green 2L	Pink	80cm	✓
<i>Paeonia lactiflora</i> 'Sarah Bernhardt' Fragrant double flowers of apple-blossom-pink appear in late spring. The large flowers may need some support.	Green 2L	Pink	90 cm	✓

<i>Papaver orientale</i> 'Patty's Plum' This is a particularly attractive oriental poppy with deep reddish-purple flowers held above bristly grey-green leaves.	Black 2L	Pink Purple	60 - 90cm	

Plant	Pot Size	Flower	Height	AGM
<i>Papaver orientale</i> 'Pizzicato'	Black 2L	Pink Red Orange	50 - 60cm	
A dwarf oriental poppy suitable for the middle of a mixed border. Flowers are cup shaped and colours range from red and orange, to mauve and pink but all with a dark blotch at the base of the petal.				
<i>Penstemon</i> 'Blackbird'	Black 1L	Purple	up to 90cm	
Penstemons give a bright splash of colour to the summer border. This variety flowers profusely and has lovely deep purple flowers on tall slender stems.				
<i>Penstemon</i> 'Firebird'	Black 1L	Red	90cm	✓
Penstemons are good plants for the summer border. This variety forms a bushy plant and has masses of bright red flowers throughout the summer.				
<i>Penstemon</i> 'Flamingo'	Black 1L	Pink	60cm	
An easy to grow perennial for the cottage garden border. It flowers throughout summer and often into autumn. Flamingo has large pink flowers with a white throat.				
<i>Penstemon</i> 'Heavenly Blue'	Black 1L	Blue	60cm	
A long flowering perennial for a sunny position in the garden. It has blue foxglove like flowers tinged with magenta.				
<i>Penstemon</i> 'Sour Grapes'	Black 1L	Purple	60cm	✓
Penstemon's quickly form good clumps and add a beautiful splash of colour to the summer border. This variety has reddish violet flowers with a white throat and maroon veining.				
<i>Penstemon</i> 'White Bedder'	Black 1L	White	60cm	✓
A fabulous addition to the garden, flowering over a long period. It produces pink buds followed by white tubular flowers.				
<i>Penstemon digitalis</i> 'Husker Red'	Black 1L	White	60cm	
An unusual Penstemon with maroon-red and green foliage. In summer a profusion of white flowers are held on rich red stems.				
<i>Perovskia</i> 'Blue Spire'	Black 2L	Blue	up to 1m	✓
This deciduous sub-shrub makes a fantastic addition to the late summer border. It has aromatic deeply divided silver-grey foliage and tiny blue tubular flowers are held on silvery stems in late summer and early autumn.				
<i>Persicaria affinis</i> 'Darjeeling Red'	Black 2L	Red	30cm	✓
An attractive looking plant which forms a mat of lance shaped green foliage. In summer spikes of pale pink flowers are produced above the foliage. These gradually mature to a deep red.				
<i>Persicaria amplexicaulis</i> 'Firetail'	Black 2L	Red	90cm	✓
An attractive long flowering perennial ideal for a moist area. It produces bright red tapering spikes of flowers throughout summer above mid green foliage.				
<i>Persicaria bistorta</i> 'Superba'	Black 2L	Pink	60 - 90cm	✓
Ideal for the back of the border it has large broad leaves and spikes of pale pink soft flowers.				
<i>Phlox paniculata</i> 'Blue Paradise'	Black 2L	Blue	up to 1.2m (3ft)	
Ideal for the back of the border this Phlox carries scented violet-blue flowers at the top of tall stems. Its fragrant flowers will attract bees and butterflies to the garden.				
<i>Phlox paniculata</i> 'David'	Black 2L	White	1m	✓
The large sweetly fragrant flower clusters create a spectacular show in the summer border. This is one of the best white varieties with bright green foliage and good mildew resistance.				

Plant	Pot Size	Flower	Height	AGM
<i>Phlox paniculata</i> 'Franz Schubert' The large sweetly fragrant flower clusters create a spectacular show in the summer border. This variety has soft lilac flowers with a darker centre.	Black 2L	Purple	up to 1m	✓
<i>Phlox paniculata</i> 'Fujiyama' A cottage garden favourite, this Phlox has delicate starry white flowers held above dark green leaves. The flowers are scented and will attract bees and butterflies to the garden.	Black 2L	White	up to 75cm	
<i>Phlox paniculata</i> 'Grenadine Dream' The large sweetly fragrant flower clusters create a spectacular show in the summer border. This variety has reddish-purple flowers. Good for cut flowers and attracting butterflies.	Black 2L	Purple	upto 60cm	✓
<i>Phlox subulata</i> 'McDaniel's Cushion' A low growing Phlox which forms a cushion of lush green foliage. In spring and early summer masses of dark pink flowers are produced covering the whole plant.	Black 1L	Pink	15cm	✓
<i>Phlox subulata</i> 'Purple Beauty' A fabulous ground covering perennial which forms a mat of dense green foliage. In spring and early summer masses of tiny lilac flowers with a dark eye cover the whole plant.	Black 1L	Purple	15cm	
<i>Phuopsis stylosa</i> A mat-forming perennial with whorls of green narrow, aromatic leaves clusters of small, narrowly funnel-shaped pink flowers. Plant in a well drained soil in full sun or partial shade. Excellent ground cover.	Black 1L	Pink	25cm	
<i>Physalis alkekengi</i> 'Gnome' Commonly known as Chinese Lantern, this dwarf variety has very attractive orange lantern like fruits which last well into the winter months. It grows upto 20cm in height in a part shade/full sun, the fruits are preceded by white star like flowers in July.	Black 2L	White	20cm	
<i>Polemonium</i> 'Bressingham Purple' A compact variety that produces purple-tinged foliage. Slender purple stems with purple leaves hold clusters of cupped, lilac-blue flowers marked in a darker blue with a small white centre. Flowers on and off for a long period between spring and autumn.	Black 2L	Purple	up to 50cm	
<i>Polemonium caeruleum</i> An attractive spring and early summer bloomer. Its leaves are formed of elliptical leaflets giving the effect of a primitive ladder. At the top of tall stems sprays of soft blue bell shaped flowers with bright yellow stamens appear in early summer.	Black 2L	Blue	75cm	
<i>Polemonium caeruleum</i> 'Alba' An attractive spring and early summer bloomer. Its leaves are formed of elliptical leaflets giving the effect of a primitive ladder. At the top of tall stems sprays of white bell shaped flowers with bright yellow stamens appear in early summer.	Black 2L	White	60cm	
<i>Polygonatum multiflorum</i> A fabulous addition to a shady corner. It has arching stems which carry glossy dark green oval leaves, amongst which in early spring clusters of white bell shaped flowers are held. The flowers are followed by small black fruits.	Black 2L	White	90cm	
<i>Potentilla</i> 'Gibson's Scarlet' A beautiful low growing plant for the front of the border. It has strawberry like leaves above which bright red flowers are held.	Black 2L	Red	45cm	✓

Plant	Pot Size	Flower	Height	AGM
<i>Potentilla</i> 'William Rollison' A beautiful variety for the border. It has large semi-double orange flowers with yellow centres held above divided deep green foliage.	Black 2L	Orange	45cm	✓
<i>Potentilla atrosanguinea</i> Saucer shaped red flowers are borne on thin stems above grey-green leaves. Prefers a well drained soil.	Black 1L Black 2L	Red	45 - 90cm	
<i>Potentilla recta</i> 'Warrenii' This low growing potentilla is perfect for the front of the border. It produces sprays of canary yellow flowers above strawberry like foliage.	Black 1L Black 2L	Yellow	45cm	
<i>Potentilla thurberi</i> 'Monarch's Velvet' A prolific production of velvety red flowers with a dark centre throughout summer. This is one of the best herbaceous potentillas	Black 1L Black 2L	Red	60 - 75cm	
<i>Primula denticulata</i> 'Alba' Commonly known as the Drumstick primula. Pure white flowers with bright yellow centres held proudly above a rosette of mid-green foliage. Flowers appear early in spring. Looks good in a pot or container.	Black 1L	White	10 - 20 cm	
<i>Primula denticulata</i> 'Lilac' Commonly known as the Drumstick primula. Spheres of bright lilac flowers held proudly above a rosette of mid-green foliage. Flowers appear early in spring. Look good in pots or containers.	Black 1L	Purple	10 - 20 cm	
<i>Primula denticulata</i> 'Ruby' Commonly known as the Drumstick primula. Bright ruby-red flowers held proudly above mid-green foliage in early spring. Look good in pots or containers	Black 1L	Red	10 - 20cm	
<i>Primula vialii</i> A short lived perennial. Compact spikes of small lilac flowers with a brilliant red calyx appear in the late Spring. Enjoys a moist soil and will tolerate full sun or part shade.	Black 1L	Pink Red Purple	30 - 45cm	✓
<i>Primula x bulleesiana</i> A stunning Summer flowering plant with tiered upright rosettes of colourful flowers varying from pinks to oranges. It grows very happily in damp/boggy situations making it ideal as a marginal plant. Takes little maintenance and will create a vibrant addition to the garden where other plants may struggle. Requires rich moist soil.	Black 1L	Pink White Red Yellow Orange	upto 60cm	
<i>Pulmonaria</i> 'Sissinghurst White' An excellent groundcover plant with attractive foliage and early flowers. It has silver spotted green leaves above which are held pure white flowers.	Black 2L	White	Height 30cm (12inch)	✓
<i>Pulmonaria angustifolia</i> 'Blue Ensign' This is an early spring flowering plant, ideal for the front of a border. Masses of clear deep blue flowers above dark green foliage. Good ground cover in a shady location.	Black 2L	Blue	30 - 40cm	✓
<i>Pulmonaria saccharata</i> 'Mrs Moon' The leaves of this pulmonaria are mid-green and marbled with white spots. In spring it produces small bluish-pink flowers. It is an excellent ground cover plant for moist shady spot.	Black 2L	Pink Blue	25 - 30cm	

Plant	Pot Size	Flower	Height	AGM
-------	----------	--------	--------	-----

R

Rodgersia pinnata 'Chocolate Wing'

Black 2L	Pink	90cm	
----------	------	------	--

Perfect for a moist border. It has bold, divided leaves that form an exotic-looking clump. The leaves start bronze in spring changing to dark green as the season progresses. Big plumes of deep-pink flowers are produced in early summer.

Rudbeckia 'Little Gold Star'

Black 2L	Yellow	50cm	
----------	--------	------	--

A recent introduction, this is a compact variety which flowers in abundance. The yellow daisy-like flowers sit on top of stout branching stems above mounds of lush green foliage.

Rudbeckia lacinata 'Goldquelle'

Black 2L	Yellow	75cm	✓
----------	--------	------	---

A clump-forming herbaceous perennial with slightly lobed, dark green leaves. In Autumn bright lemon-yellow, fully double flowers are produced. Very effective in the September border, lovely to pick.

Rudbeckia var sullivantii 'Goldsturm'

Black 1L	Yellow	70 - 90cm	✓
Black 2L			

This is a pretty late summer flowering perennial, with startling bronze flowers that glow in the late autumn sunshine. A must have plant for every garden!

S

Salvia 'Nachtvlinder'

Black 2L	Purple	75cm	
----------	--------	------	--

A lovely variety for the garden with hooded flowers in plum-purple. It flowers over a long period in summer and autumn. Fully hardy in freely draining soils, this bushy shrub will become drought tolerant once established.

Salvia nemorosa 'Caradonna'

Black 2L	Purple	up to 75cm	✓
----------	--------	------------	---

A beautiful addition to the herbaceous border. This *Salvia* has spikes of purple flowers held above aromatic grey-green foliage. Ideal for attracting bees and butterflies.

Salvia nemorosa 'Ostfriesland'

Black 2L	Blue	up to 45cm	✓
----------	------	------------	---

A compact variety ideal for the front of the herbaceous border. It has spires of violet-blue flowers during summer held above wrinkled mid-green leaves.

Salvia x superba 'Blauhugel'

Black 2L	Blue	40cm	
----------	------	------	--

An excellent Sage which forms a compact bushy plant covered with long spires of rich-blue lipped flowers opening from purple bracts. For sunny front or middle of border in any reasonable soil.

Salvia x sylvestris 'Mainacht'

Black 2L	Blue	up to 75cm	✓
----------	------	------------	---

A delightful plant for the middle of any border. This *salvia* has spikes of indigo-blue flowers in early summer held above wrinkled grey-green leaves. Ideal for attracting bees and butterflies.

Sanguisorba menziesii

Green 2L	Red	60 - 75cm	
----------	-----	-----------	--

Great for a naturalistic planting schemes. They have finely toothed pinnate blue-green foliage, above which long-lasting crimson flower spikes hold themselves high on arching wiry stems.

The flower-heads retain the deep red colour for many weeks and the seed heads keep their shape and colour well into winter increasing the seasonal interest.

Saxifraga x arendsii 'Red'

Black 1L	Pink	15cm (6inch)	
----------	------	--------------	--

A compact cushion forming perennial which flowers in early spring. It is usually evergreen and has fine needle like bright green leaves. In spring red/pink blooms appear on long thin stems high above the foliage.

Plant	Pot Size	Flower	Height	AGM
<i>Saxifraga x arendsii</i> 'White'	Black 1L	White	15cm	
A compact evergreen perennial which flowers in early spring. The foliage forms rosettes of flat-needle like sprays of leaves and is usually evergreen. In late spring small white flowers are held above the foliage on wiry stems.				
<i>Saxifraga x urbium</i> 'London Pride'	Black 1L	Pink	20 - 30cm	✓
'London Pride' has rosettes of spoon shaped green leaves with serrated edges and provides fantastic ground cover. In summer it produces tiny star shaped pale pink flowers on long stems.				
<i>Scabiosa columbaria</i> 'Blue Note'	Black 1L	Blue	25 - 30cm	
An excellent long flowering variety this plant forms a low mound of lacy grey-green foliage. It produces small button-shaped flowers in a soft lavender-blue shade over a long period. Ideal for along the front of a sunny border or in mixed containers.				
<i>Scabiosa columbaria</i> 'Misty Butterflies'	Black 1L	Pink Blue	30cm	
Ideal for edging, rock gardens or containers. Plants form a low mound with taller stems that bear small lacy button flowers of soft lilac blue or sometimes pale pink. Remove faded blooms and plants will continue to flower for months. Attractive to butterflies.				
<i>Sedum</i> 'Autumn Joy'	Black 2L	Pink	45 - 60cm	✓
A great plant for the late summer border it has fleshy oval grey-green leaves, above which are flat-topped deep pink flowerheads. Drought tollerant, attracts bees and butterflies.				
<i>Sedum</i> 'Matrona'	Black 2L	Pink	up to 75cm	✓
Good for the late summer border this sedum has purple stems above which are held clusters of soft pink flowers. Excellent as a cut flower and for attracting bees and butterflies.				
<i>Sedum</i> 'Purple Emperor'	Black 2L	Pink	45cm	✓
A fabulous Sedum with plum-black foliage. The leaves have a crimped effect and a glossy finish. In summer heads of tiny pink flowers appear attracting bees and butterflies.				
<i>Sedum cauticola</i> 'Coca Cola'	Black 1L	Pink	up to 20cm	
A low growing sedum ideal for rockeries and gravel gardens. It has rounded spoon shaped leaves which are grey-green in colour. In summer masses of soft pink flowers are produced.				
<i>Sedum spurium</i> 'Dragon's Blood'	Black 9cm	Red	10cm	
The brilliant star-shaped clusters of red flowers contrast nicely with the green succulent foliage. During summer the foliage is tinged with wine red margins but turns red with the cooler weather.				
<i>Sempervivum</i> 'Bronco'	Black 9cm		5cm	✓
A hardy alpine plant which will add an exotic feel to a sunny garden. They are ideal for rock gardens, troughs, planters and wall crevices. 'Bronco' produces medium sized rosettes of dark green leaves tipped in purple.				
<i>Sempervivum</i> 'Director Jacobs'	Black 9cm	Pink	15cm	
A nice variety for year round interest for colour and appearance. Light burgundy, hairy edged leaves have a frosty appearance. Star shaped flowers are generally pink, but the plant is grown for colourful foliage at its best spring to summer then fades.				
<i>Sempervivum</i> 'Virgil'	Black 9cm		15cm	
'Virgil' makes bold, handsome clumps of rosettes. The fairly broad leaves are a curious shade - dusky, pinkish purple overcast with grey. Shows good colour all year round and is a good grower.				
<i>Sempervivum arachnoideum subsp. tomentosum</i>	Black 9cm	Pink	4cm	✓
A hardy alpine plant which will add an exotic feel to a sunny garden. They are ideal for rock gardens, troughs, planters and wall crevices. It produces fleshy rosettes covered in cobweb like white hairs. Starry pink flowers are borne on long stems in Summer.				

Plant	Pot Size	Flower	Height	AGM
<i>Silene uniflora</i> A small low growing semi-evergreen plant which is useful for the front of sunny borders or gravel gardens. It has grey-green fleshy leaves and showy white flowers which appear in spring-summer.	Black 1L	White	15 - 20cm	
<i>Sisyrinchium 'Sapphire'</i> A beautiful little plant for the front of the border. It forms a clump of low growing bright green grassy like foliage. At the top of stout stems above the foliage sapphire blue flowers with yellow throats are produced in early summer.	Black 1L	Blue	15cm	
<i>Sisyrinchium striatum</i> A robust plant with sword shaped greyish-green leaves which form a fan around the flower stems. Cup-shaped pale yellow flowers are produced along the length of the stem throughout summer.	Black 2L	Yellow	up to 80 cm	
<i>Stachys byzantina 'Silver Carpet'</i> Grown for its beautiful silver foliage, this non flowering Stachys provides an unusual ground cover plant.	Black 2L		45cm	
<i>Summerina 'Orange'</i> A new plant which is a cross between an Echinacea and Rudbeckia. The daisy like flowers are orange-ringed with a central brown cone. The flowers last well for the entire season.	Green 2L	Brown	50cm	
<i>Summerina 'Yellow'</i> A new plant which is a cross between an Echinacea and Rudbeckia. The daisy like flowers start Yellow with a red ringed centre and by November the red is flecked throughout the flower. The flowers last well for the entire season.	Green 2L	Yellow	50cm	
<i>Symphotrichum 'Little Carlow'</i> A pretty Aster that will add a splash of colour to the late summer border. It produces masses of small violet-blue daisy flowers with yellow centres over a long period.	Black 2L	Blue	up to 90cm (36inch)	✓
<i>Symphotrichum ericoides 'Golden Spray'</i> An easy to grow Aster with good mildew resistance. It has fresh green feathery foliage and large open sprays of tiny white-rayed daisies with prominent golden-yellow centres, these become tinged with pink as they fade.	Black 2L	White	90cm	✓
<i>Symphotrichum novae-angliae 'Andenken an Alma Potschke'</i> A wonderful plant for adding colour to the late summer border and well suited to prairie style planting. Between August and October at the top of tall stems, bright cerise-pink flowers are held.	Black 2L	Pink	90cm	✓
<i>Symphotrichum novi-belgii 'Lady in Blue'</i> A beautiful dwarf Aster ideal for the front of a border or container. It has semi-double lavender blue daisy like flowers.	Black 2L	Blue	25cm	

T

<i>Thalictrum aquilegifolium</i> A beautiful plant for the back of the border. Airy clouds of purple-pink flowerheads are held above dissected aquilegia like foliage.	Black 1L Black 2L	Purple	up to 1m	
<i>Thalictrum delavayi 'Album'</i> A desirable late summer plant for the shady border. It has pale green finely divided leaves. The stems form a graceful framework from which parasol like white flowers emerge at the tips.	Black 2L	White	1.5m	

Plant	Pot Size	Flower	Height	AGM
<i>Thymus</i> 'Doone Valley'	Black 1L	Pink	up to 12cm	
This creeping Thyme has dark olive-green leaves with yellow spots above which are held tiny purple-pink flowers.				
<i>Thymus</i> 'Hartington Silver'	Black 1L	Pink	up to 12cm	
Ideal for a rock garden this Thyme creates a mat of scented creamy white variegated leaves above which are held tiny pink flowers in summer.				
<i>Thymus pulegioides</i> 'Bertram Anderson'	Black 1L	Pink	up to 15cm	✓
An evergreen Thyme with small rounded golden leaves which are richly scented and full of flavour. It produces small clusters of pink flowers at the end of its stems in summer.				
<i>Thymus serpyllum</i> 'Russetings'	Black 1L	Pink	up to 10cm	
This creeping Thyme has tiny dark green leaves tinted with bronze. In summer tiny mauve flowers are held in clusters above the foliage.				
<i>Thymus x citriodorus</i> 'Silver Queen'	Black 1L	Pink	up to 30cm	✓
This lemon scented Thyme has small ovate green leaves with silver margins. Tiny pale lilac flowers appear in summer.				
<i>Tiarella</i> 'Iron Butterfly'	Green 2L	Pink	up to 40cm	
Ideal for a semi-shady position this plant has deeply cut green leaves heavily marked with maroon above which spikes of very pale pink flowers are held.				
<i>Tiarella wherryi</i>	Black 1L Black 2L	Pink White	35 - 45cm	✓
A good plant for a shady position. It has heart-shaped lobed leaves which are often patterned with maroon. It produces spikes of white to pink flowers in Spring.				
<i>Tradescantia x andersoniana</i> 'Bilberry Ice'	Green 2L	Blue	30cm	
A compact plant with strap shaped green leaves above which three petalled flat flowers sit. The flowers are blue-white with a splash of lavender in the centre.				
<i>Tradescantia x andersoniana</i> 'Osprey'	Green 2L	White	up to 60cm	✓
Clusters of pretty white flowers with blue stamens are held above narrow lance shaped green leaves.				
<i>Tricyrtis formosana</i> 'Pink Freckles'	Green 2L	Pink	35cm	
Excellent for a shady position in the garden and flowering in early summer through to autumn. 'Pink Freckles' produces star shaped lilac-white flowers with distinctive maroon spots.				
<i>Trifolium repens</i> 'Purpurascens Quadrifolium'	Black 1L	White	8 - 10cm	
A wonderful ground cover plant with deep purple leaves edged in green. In summer it produces small white clover like flowers which are attractive to bees.				
<i>Trollius chinensis</i> 'Golden Queen'	Black 1L Black 2L	Orange	30 - 60cm	✓
Rich orange flowers held above dark green foliage during May and June. These moisture loving plants look great by the side of a pond or stream or in a bog garden.				
<i>Tulbaghia violacea</i> 'Silver Lace'	Green 2L	Purple	50cm	✓
This is the variegated form. Its grey-green, strap-shaped leaves are veined with white creating a pretty effect. It produces allium-like heads of soft, violet-purple flowers throughout summer and into autumn.				

Plant	Pot Size	Flower	Height	AGM
V				
<i>Verbena</i> 'Homestead Purple'	Black 1L	Purple	up to 30cm	
A low growing vigorous <i>Verbena</i> great for the front of the border or in containers. Throughout summer it carries masses of deep purple flowers. Ideal for attracting bees and butterflies				
<i>Verbena</i> 'Sissinghurst'	Black 1L	Pink	15 - 20cm	✓
A fabulous mat forming <i>Verbena</i> excellent for edging a path or growing in a container. It flowers throughout summer producing brilliant pink flowers above mid-green foliage.				
<i>Verbena bonariensis</i>	Black 1L	Purple	1.2 - 1.8m	✓
Tall stems carry heads of small lilac-purple flowers from July to the first frosts. A popular 'see through' plant to enhance the late summer border.				
<i>Verbena rigida</i>	Black 1L	Purple	60cm	✓
A lovely low growing <i>verbena</i> ideal for the front of the border. It produces clusters of fragrant tiny purple flowers throughout summer which are attractive to butterflies.				
<i>Veronica</i> 'Charlotte'	Green 2L	White	60cm	
A brand new variegated <i>veronica</i> with beautiful white flowers. The green lance-shaped leaves have a creamy white margin. During summer spikes of white flowers are produced.				
<i>Veronica austriaca teucrium</i> 'Royal Blue'	Black 1L	Blue	30cm	✓
A mat forming perennial with deeply toothed green leaves. Saucer shaped flowers are carried on spikes and are deep blue in colour. Flowers over a long period in the summer.				
<i>Veronica gentianoides</i>	Black 1L	Blue	30 - 45cm	✓
A mat forming perennial that bears pale blue cup shaped flowers in early summer. Good for the front of a border. Prefers a well drained soil.				
<i>Veronica longifolia</i> 'Marietta'	Green 2L	Blue	85cm	
This <i>Veronica</i> has eye catching dark blue flowers with bright yellow stamens. The flowers spikes are produced in summer above lush deep green foliage.				
<i>Veronica spicata</i>	Black 1L	Blue	30 - 60 cm	
A clump forming perennial that produces a cushion of green foliage, above which spikes of small star-shaped blue flowers are born in summer.				
<i>Veronica spicata</i> 'Alba'	Black 1L	White	30-60cm	
A clump forming perennial that produces a cushion of green foliage, above which spikes of small star-shaped white flowers are born in summer.				
<i>Veronicastrum virginicum</i> 'Erica'	Green 2L	Pink	120cm	
A tall spiky perennial great for adding vertical interest to the back of the border. During summer it produces spires of tiny pink flowers clustered around slender stems.				
<i>Veronicastrum virginicum</i> 'Pink Glow'	Green 2L	Pink	up to 1.5m	
An excellent plant for the back of the border with architectural spikes of pale pink flowerheads held on leafy stems.				
<i>Viola</i> 'Etain'	Black 1L	Yellow	15cm	
A very pretty <i>Viola</i> for the front of a border, gravel garden or container. It has green foliage above which light yellow blooms edged with lavender are held.				
<i>Viola</i> 'Irish Molly'	Black 1L	Yellow	20cm	
Unusual flower colour of 'maroon brown and khaki-yellow-green (according to the RHS!) Long flowering period from April to September especially if deadheaded. Great in pots tubs and containers.				

Plant	Pot Size	Flower	Height	AGM
<i>Viola</i> 'Janet' An attractively coloured <i>Viola</i> for the front of a border, or a container. It has deep green foliage and scented, dark blue flowers with cream centre and yellow eye.	Black 1L	Blue	15cm	
<i>Viola</i> 'Molly Sanderson' Black flowers with a yellow eye held over compact foliage make this an unusual but stunning <i>viola</i> . Long flowering period especially if deadheaded. Ideal for pots and containers	Black 1L		15cm	✓
<i>Viola</i> 'Mrs Lancaster' A beautiful little <i>viola</i> with pure white scented flowers. A fantastic addition to the summer border or for use in containers. Can also be used in shady areas. Dead-head to extend flowering period.	Black 1L	White	15cm	

Z

Ferns

Adiantum aleuticum 'Imbricatum'

Black 2L

30cm

This dwarf fern produces a sculptured, layered effect. It is a very hardy fern despite its delicate appearance. It produces blue-green foliage and purple wiry leaf stems.

Athyrium niponicum var *pictum*

Black 2L

30 - 60cm

One of the most recognised and popular ferns. This outstanding variety forms a compact clump of fronds, dark green in colour, overlaid in olive and silvery-pewter, with contrasting burgundy stems. Terrific for edging the shade border.

Athyrium niponicum var *pictum* 'Red Beauty'

Black 2L

45cm

The Japanese Painted Fern is one of the most popular ferns grown today. Great for a shady border. The fronds appear painted and this variety boasts strong colours. It is silvery grey-green with deep wine-red colour towards the centre and pronounced burgundy midribs.

Dryopteris affinis 'Pinderi'

Black 2L

90cm

A tall, upright semi-evergreen fern with narrow fronds, very elegant and robust.

Dryopteris sieboldii

Black 2L

60cm

✓

Semi-evergreen fern with large, leathery fronds and a distinctive arching habit.

Dryopteris wallichiana

Black 2L

75 -
150cm

✓

An outstandingly hardy fern. In spring bright green, shuttlecock-like fronds are produced on upright, hairy stems.

Osmunda japonica

Black 2L

up to
100cm

An attractive variety of Royal Fern, differing from *Osmunda regalis* in that it has separate fertile and sterile fronds.

It has sturdy, upright fronds rising from a thick rhizome.

Polystichum setiferum 'Congestum'

Black 2L

25cm

This dwarf variety forms a small mound of soft and feathery-looking fronds, dark green to grey-green in colour. It will remain evergreen in a mild winter.

Polystichum setiferum 'Divisilobum Wollaston'

Black 2L

up to
80cm

This group includes some of the most beautiful feathery ferns. Wollaston is a spreading, evergreen or semi-evergreen fern, with arching, large fronds of extremely lacy dark green foliage.

Polystichum setiferum 'Herrenhausen'

Black 2L

36cm

A lovely variety of our native evergreen fern. It has filigree-fine fronds that form a lacy rosette. It is ideal at the front of a shady border or in a woodland setting among contrasting ferns and foliage plants. In late spring or early summer new fronds unfurl. Once unwound, the tip of each leaf remains tightly curled with a knot of silver-white hairs.

Polystichum setiferum 'Plumosodensum'

Black 2L

45cm

One of the most handsome of all this mossy soft shield fern has plenty to offer. It has compact growth habit with upright fronds. These are finely divided with overlapping leaflets.

Grasses

<i>Anemanthele lessoniana</i>	Black 2L		up to 1m	
A versatile evergreen grass which will grow in sun or shade. It forms a mound of arching green foliage which turns shades of gold and bronze in autumn.				
<i>Calamagrostis x acutiflora</i> 'Karl Foerster'	Black 2L	Green	Up to 2m	
A handsome reed like grass adaptable to many garden situations. It produces feathery green flowerheads in summer which fade to buff. Planted in groups it will create a feathery effect. The flowerheads last well into the winter making it an excellent architectural plant.				
<i>Carex oshimensis</i> 'Evergold'	Black 1L	Brown	25cm	✓
A short evergreen sedge which forms mounds of foliage. It has striking green leaves with a central strip of creamy yellow. In summer brown flower spikes are produced.				
<i>Eragrostis elliottii</i> 'Wind Dancer'	Black 1L	Brown	Up to 1m	
A stunning grass, graceful in appearance with dense bluish green leaves. From July light airy flower spikes appear, turning brown then yellow in autumn.				
<i>Festuca glauca</i> 'Elijah Blue'	Black 1L	Blue	up to 15cm	
A small ornamental blue leaved grass. It has dense, erect, narrow spiky blue-grey leaves and forms little mounds. Best planted in irregular groups.				
<i>Luzula sylvatica</i> 'Hohe Tatra'	Black 2L	Brown		
A dense tufted evergreen grass ideal for a shady spot. It has bright shiny yellow leaves that turn yellow/green through the summer. In spring spikes of brown flowers are carried above the foliage.				
<i>Miscanthus sinensis</i> 'Morning Light'	Green 2L	Brown	1.8m (5ft)	✓
A beautiful grass with an arching habit which creates a fountain effect in the garden. The leaves are green with narrow cream margins. In summer reddish-brown flowers spikes appear which last well into the autumn.				
<i>Molinia caerulea subsp arundinacea</i> 'Sky Racer'	Black 2L	Purple	up to 2m	
A tall upright clump forming grass which is good for adding structure within the garden. It produces arching green foliage creating a fountain effect. In summer panicles of purple flower spikes appear.				
<i>Panicum</i> 'Heavy Metal'	Black 2L	Purple	1.2m	
This variety has clumps of very upright grey green foliage with large panicles of tiny purplish spikelets in summer.				
<i>Panicum virgatum</i> 'Rotstrahlbusch'	Black 2L		1 - 1.2m	
A tall delicate grass with late summer flowers and colourful autumn foliage. The flowers are light brown in colour and the foliage turns deep red in autumn.				
<i>Pennisetum alopecuroides</i> 'Hameln'	Black 2L	Yellow	60 - 90cm	
This grass forms clumps of arching foliage which turns deep yellow in autumn. Creamy white flowers with orange stamens appear in late summer.				
<i>Pennisetum setaceum</i> 'Rubrum'	Black 2L	Red, Brown	90 - 120cm	
A showy grass that is ideal to create a focal point in a border or container. It forms an upright clump of burgundy-purple leaves and bears arching bottlebrush type flowers which change from red to tan.				
<i>Stipa gigantea</i>	Green 2L	Yellow	up to 1.2m	✓
A magnificent grass for creating a focal point. The arching stems carry golden oat like flowerheads which last throughout the summer.				

Plant	Pot Size	Flower	Height	AGM
<i>Stipa tenuissima</i>	Black 1L		up to 60cm	
A dense grass with bright green leaves and wiry stems carrying pale green plumes which fade to beige. Best grown in drifts where the effects of light can be seen running through the flowers.				
<i>Uncinia rubra</i> 'Everflame'	Black 2L		30cm	
Ideal for the front of a border or pot this small sedge has a neat and upright habit with reddish or bronzed foliage. Each leaf is bronze with vivid bright red margins which gleam in the sun.

In spring colourful cream, pink and pale green leaves are produced followed by clusters of bright pink tubular flowers in summer. In autumn the leaves turn from pink to plum to purple.	Green 2L	Pink	up to 1m	

Herbs

Basil

Basil

Ocimum basilicum

A tender annual plant with oval, green leaves which release a wonderful aroma when crushed. The leaves have a classic basil flavour and can be used fresh in salads or as an accompaniment to tomatoes.

Greek Basil

Ocimum minimum 'Greek'

An annual herb with small, aromatic green leaves. It produces clusters of small white flowers during summer. Excellent for growing in pots or on a windowsill.

Lemon Basil

Ocimum x citriodorum

A compact bushy annual with dark green leaves which have a strong lemon scent.

Chamomile

Lawn Chamomile

Chamaemelum nobile 'Treneague'

This chamomile has finely divided aromatic leaves and is ideal for creating lawns as it does not flower and will not need cutting.

Sweet Chamomile

Chamaemelum nobile

This chamomile has finely divided aromatic leaves. In summer it produces single white daisy like flowers.

Chervil

Chervil

Anthriscus cerefolium

Tiny white flowers appear in spring until summer on tall stems with fern like green leaves. The leaf flavour is sweet and slightly aniseed and they can be used fresh in salads and soups.

Chives

Chives

Allium schoenoprasum

A hardy perennial with globe shaped purple flowers. The mid-green leaves are cylindrical and hollow and have a mild onion like flavour. Chives make an excellent culinary herb useful for salads or herb butter.

Garlic Chives

Allium tuberosum

A hardy perennial with clusters of white star shaped flowers. The flat lance-shaped green leaves have a mild garlic flavour. Chives make an excellent culinary herb useful for salads or herb butter.

Coriander

Coriander Confetti

Coriandrum 'Confetti'

Confetti produces fine, distinctive, feathery leaves, which are full of the usual coriander taste but with increased sweetness. It is early to mature and much slower to bolt than other varieties, making it ideal for use as cut and come again baby leaf salad.

Curry Plant

Curry Plant

Helichrysum italicum

A small plant with silvery-grey foliage which smells very strongly of curry. It produces bright yellow flowers in summer which retain their colour after cutting and are useful for drying.

Dill

Dill

Anethum graveolens

A tall hardy annual with umbels of small yellow-green flowers followed by aromatic seeds. The leaves are needle like and feathery held on hollow ribbed stems. The flowers can be used fresh and have a sweeter flavour than the leaf.

Fennel

Bronze Fennel

Foeniculum vulgare 'Purpureum'

Ideal for a mixed flower border or herb bed. The foliage is feather like and soft bronze in colour. In summer large flat heads of small yellow flowers appear.

Fennel

Foeniculum vulgare

A beautiful aromatic herbaceous perennial. The foliage is pale green and feathery in nature. In summer large flat umbels of delicate yellow flowers are produced. These are followed by aromatic seeds which should be harvested just after they turn brown.

Hyssop

Hyssop

Hyssopus officinalis

A mediterranean herb with narrow dark green leaves which can be harvested and dried. Spikes of blue flowers appear in summer. Can be used for low hedging.

Lemon Balm

Lemon Balm

Melissa officinalis

An easy to grow perennial herb with aromatic lemon leaves. The leaves can be used in drinks, salads or puddings. In summer clusters of small cream flowers are produced.

Variegated Lemon Balm

Melissa officinalis 'Aurea'

This Lemon balm has finely toothed, lemon scented green and gold leaves. In summer clusters of small cream flowers are held above the foliage. Good for flavouring stuffings and salads or as a tea.

Lovage

Lovage

Levisticum officinale

Tall hardy herbaceous perennial with soft green divided leaves which smell of celery when crushed. Clusters of tiny pale yellow-green flowers appear in summer followed by brown seeds. Tender young leaves can be used in salads.

Marjoram

Golden Marjoram

Origanum vulgare 'Aureum'

A golden version of this popular herb. It forms a beautiful mound of golden foliage in the garden with spikes of pink flowers that bees and butterflies adore.

Pot Marjoram

Origanum onites

A compact Marjoram ideal for a container. It has dark green aromatic leaves which can be used fresh or dry. In summer it carries clusters of small lilac flowers.

Mint

Applemint

Mentha suaveolens

A tall mint with light green rounded, hairy leaves with a distinctive apple scent. The flowers are borne on dense spikes and are pale lilac in colour.

Berries & Cream Mint

Mentha Berries and Cream

An unusual compact variety of mint with aroma of berries and cream. It has a spreading habit, ideally contained in a pot. Lilac flowers appear in the summer. Leaves can be added to salads and other dishes. Enjoys full sun/part shade in a well drained soil

Black Peppermint

Mentha x piperita

A hardy mint with plum brown square stems, oval and pointed plum-brown leaves with dark veins. The leaves are edible and have a strong peppermint flavour and scent. In summer small pale purple flowers grow on spikes. The flowers taste of sweet peppermint

Chocolate Mint

Mentha x piperita citrata

An upright Mint with glossy dark green leaves tinged with burgundy. The leaves have a chocolate-mint flavour and taste.

Garden Mint

Mentha spicata

A wonderful culinary herb with lance-shaped, mid-green wrinkled leaves with a serrated edge. They have a strong spearmint smell when crushed. The flowers are borne on spikes and are pale purple in colour.

Ginger Mint

Mentha x gracilis 'Variegata'

A vigorous plant with upright reddish stems. The leaves are oval and dark green in colour with a strong ginger fragrance. Pale mauve flowers appear in summer among the upper leaves.

Grapefruit Mint

Mentha x piperita f. citrata 'Grapefruit'

This Mint has a zesty lemon flavour. The leaves are large, textured and roundish in shape with purple tints. In summer it produces spikes of purple flowers.

Pineapple Mint

Mentha suaveolens 'Variegata'

An extremely attractive mint with light green and cream variegated leaves which have a distinctive pineapple fragrance.

Oregano

Greek Oregano

Origanum vulgare subsp hirtum

A compact oregano of mediterranean origin. Believed to be the most flavourful oregano. It has oval green hairy leaves and small white flowers.

Oregano

Origanum marjorana

A favourite kitchen herb which combines well with tomato dishes. Pick leaves before flowering to use fresh or to dry.

Parcel

Parcel

Apium graveolens 'var secalinum'

This unusual herb looks very similar to Parsley but tastes of Celery. The leaves can be used fresh or dried in soups, stews or casseroles.

Parsley

Curly Leaf Parsley

Petroselinum crispum

An excellent variety of curly leaf Parsley. It has a very upright habit and finely curled dark green leaves with a sweet Parsley flavour.

Flat-Leafed Parsley

Petroselinum crispum

A culinary delight and well known herb. The leaves are bright green with serrated curly edges and have a fresh mild flavour. In summer flat flowerheads of creamy flowers appear.

Rosemary

Rosemary

Rosmarinus officinalis 'Miss Jessopp's Upright'

Rosemary is a classic herb good for culinary use. This variety is upright and strong growing and would make a good hedge. In summer it carries pale blue flowers.

Prostrate Rosemary

Rosmarinus officinalis 'Prostratus Group'

An essential culinary herb, this Rosemary is a low growing variety that is ideal for pots and containers. In summer an abundance of blue flowers are produced.

Sage

Common Sage

Salvia officinalis

An evergreen sage with aromatic grey-green textured leaves and mauve flowers. Leaves can be picked fresh throughout the year.

Golden Sage

Salvia Officinalis 'Icterina'

An aromatic herb with attractive green and gold variegated leaves. In summer spikes of lilac-blue flowers appear.

Purple Sage

Salvia officinalis 'purpurascens'

This sage has oval aromatic leaves which are purple-grey in colour. They can be picked fresh throughout the year. Delicate mauve flowers are produced in summer. They are good for attracting bees and butterflies.

Tangerine Sage

Salvia elegans 'Tangerine'

A tall striking herb which has oval green and brown tinted tangerine fragranced leaves. In late summer it produces red trumpet shaped flowers.

Tricolour Sage

Salvia officinalis 'Tricolor'

Oval aromatic leaves which are variegated purple, green and cream. In summer spires of blue flowers appear.

Savory

Winter Savory

Satureja montana

A hardy, semi evergreen perennial herb. It has dark green aromatic leaves and attractive small white flowers.

Tarragon

French Tarragon

Artemesia dracunculus

This Tarragon has a unique light aniseed flavour. The leaves are long, narrow and green and in summer sprays of tiny yellow flowers appear.

Thyme

Common Thyme

Thymus vulgaris

One of the best known and well used culinary herbs. Common Thyme is a shrubby evergreen low growing plant which produces small mauve flowers in summer. It's leaves can be used in stews, salads and sauces.

Lemon Thyme

Thymus x citriodorus

A Lemon scented Thyme with dark green upright foliage and pink flowers. Cut back after flowering to maintain shape.

Orange Thyme

Thymus 'Fragrantissimus'

An attractive grey/green Thyme with an upright bushy habit and an orange scent. In summer pink flowers, which are attractive to bees, are produced.

Thyme

Thymus pulegiodes 'Tabor'

A hardy spreading variety of Thyme with large glossy green leaves. It produces purple flowers during summer.

Verbena

Lemon Verbena

Aloysia citrodora

A tall half-hardy deciduous shrub which has lance-shaped lemon scented leaves. In summer it carries spikes of tiny white flowers which have a light lemon flavour.
